Basic Safety

CUTTER WITH CONCEALED BLADES, ESPECIALLY FOR PREPARING SILICON CARTRIDGES.

Order No. 594.03

Two blades, one goal: silicon.

The ARGENTAX RAPID has found its purpose: silicon cartridges. It has two blades to deal with them. One small pointed one, that you can use to scratch and cut open the plug. And a rectangular one which caps the spout opening like a guillotine according to the thickness you require. Nothing can then come in the way of your actual work, such as renewing joints.

Two functions

Ever had problems with a silicon cartridge? First of all, with the closed plug? And right after that, the spout opening, that is too narrow? The ARGENTAX RAPID can provide first class cutting in both cases.

For left and right handers

It makes no difference whether you are left or right handed when using the ARGENTAX RAPID. You will always work with the same precision. Any hand can take care of the ARGENTAX RAPID.

Practical eyelet

You won't have to do without it in this special cutting tool: the practical eyelet for attaching. So you can hang up the ARGENTAX RAPID safely, and always find it again.

Safe when you are on the go

The cutter has a protective cap to ensure that personal transporting is safe. It covers the pointed blade. The sharp edges of the second blade are best stored in the handle.

SECURITY ADVICE

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user-instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. General application instructions: Please always use the product carefully for manual cutting work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the knives into account in this regard. As an additional safety measure, we recommend the wearing of safe gloves.

2. Special application Instructions to avoid the danger of injuries: Only use cutting tools that are in perfect condition and have sharp, clean and undamaged MARTOR blades. Employ the utmost care when handling the knives. Prior to use, familiarise yourself with the safety features and their functioning. Ensure that these safety features are not impaired by the type of material to be cut. CAUTION: The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade! Do not place your free hand in the line of cutting and never cut directly towards you.

3. Replacement of spare parts: This knife is a disposable product. It is not designed to have its blades changed or any other of its components replaced. If the knife shows signs of aging or any other wear, e.g. which impair the safety features or usage, the knife must be taken out of service and replaced. Do not modify this product in any way. Modifications of any kind may impair product safety. CAUTION: The risk of injury caused by manipulation of this product is extremely high.

4. Non-use of the knife: Always secure the blade in such a way (depending on product type) that injuries due to cuts are excluded. Store the knife in a secure place.

5. Care instructions: To guarantee a long service life, always keep the knife clean and do not expose it to unnecessary soiling and humidity.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!

ACCESSORIES

BELT HOLSTER S WITH CLIP NO. 9920

What do you do with your cutting tools when you are not actually using them? The MARTOR BELT HOLSTER S is a robust holder that allows you to carry all compact MARTOR cutters as well as our safety scissors at all times. In addition, the compartments are designed to allow you to load different tools: for example you can also carry a pen or a pack of blades. The MARTOR BELT HOLSTER is the ideal place to stow your tools safely when moving from A to B - and have them at hand, as soon as they are required.
