

**Datasheet:**

Universal cable temperature Sensor.

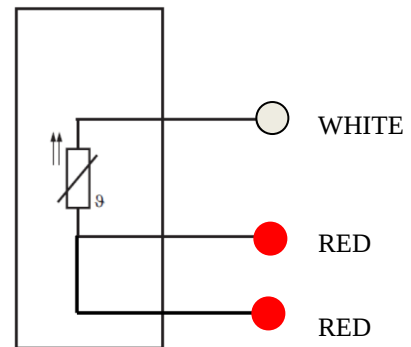

Code no. E29P6418

E29

3 wire connection

PT 100

E29P6418 IS UNIVERSAL HEAVY-DUTY CABLE TEMPERATURE SENSOR, USED FOR TEMPERATURE BETWEEN - 50°C - +350°C.

|                    |                                                            |
|--------------------|------------------------------------------------------------|
| SENSOR ELEMENT:    | 1 X PT 100, DIN EN 60751 CLASS B.                          |
| CABLE:             | 2,5M. 3 WIRE, 3X0, 22□ Glass fibre/stainless steel netting |
| WIRE COLOUR:       | RED / RED - WHITE.                                         |
| JACKET COLOR:      | STEEL.                                                     |
| PROTECTION TUBE:   | Ø6 x 50mm. STAINLESS STEEL AISI 316.                       |
| TEMPERATURE RANGE: | -50 +350°C.                                                |
| PROTECTION:        | IP54.                                                      |
