

Network Solutions

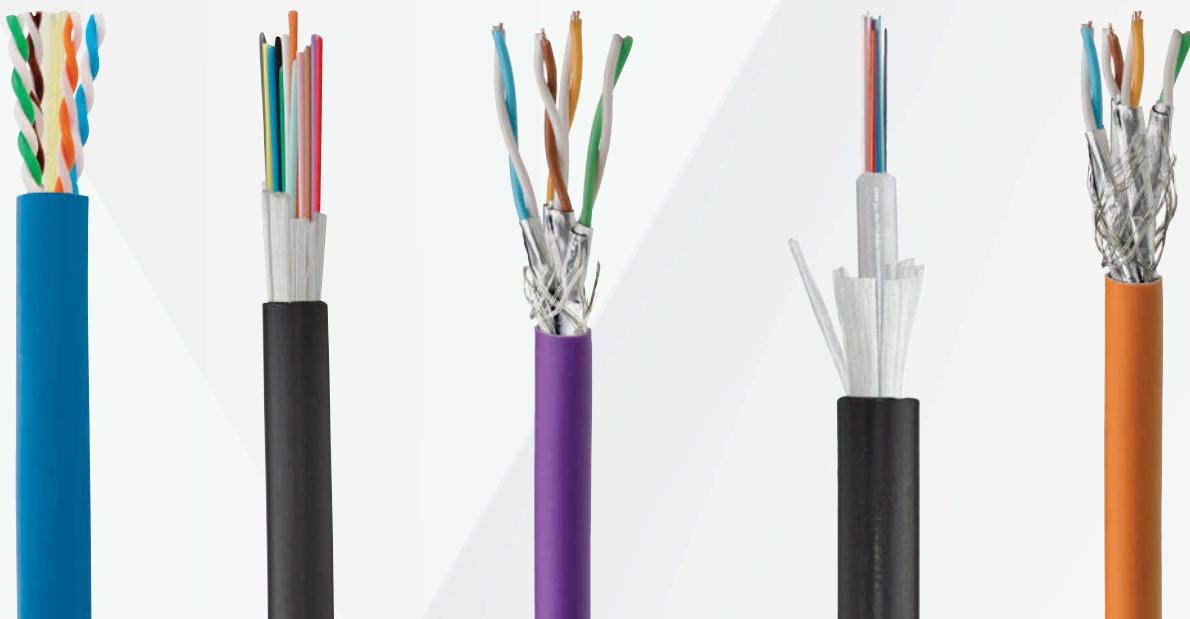

Single-source global manufacturer of innovative
end-to-end copper and fiber cabling systems

2022 Catalog
EMEA

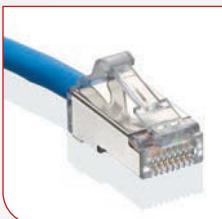

Bigger and Better than Ever

Thank you for choosing Leviton for your **network cabling systems**.

We are excited to present an expanded portfolio of cable and connectivity for customers in Europe, the Middle East, and Africa, giving you even more options to meet your network requirements.

Your single source for End-to-End Cabling Systems

Leviton is a single-source global manufacturer of **end-to-end** fiber and copper cabling systems. That means all components — jacks, cable, patch panels and more — come from Leviton factories, where our product development teams are collocated with production and quality teams. This translates into **hyper-tuned systems** and **greater network longevity**. Plus, buying complete systems from one manufacturer simplifies ordering, delivery, and warranties.

1B feet of
cable made
annually

100M+
copper and fiber links
installed to date

Data Center Solutions — Leviton offers single-mode and multimode cabling systems that support networks up to 400 Gb/s and beyond, lasting through multiple generations of tech refreshes. And in our dedicated data center factories we make custom fiber and copper trunks, harnesses, and patch cords to speed delivery and deployment.

Enterprise Solutions — Leviton has an incredible history of connecting all types of enterprise networks: financial, tech, military, medical, academic and more, offering everything from interbuilding cabling to connectivity at the desk. We also help customers integrate emerging technologies into their networks, with cabling systems designed to support Power over Ethernet and the latest smart building initiatives.

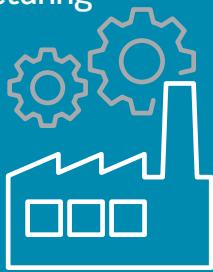

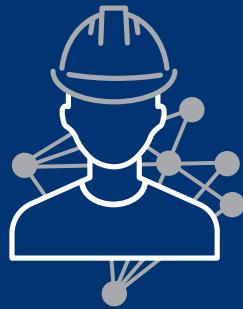

Building Stronger Partnerships

As a privately owned company, Leviton is beholden to our customers, not outside stakeholders. We make **customer success** the core of everything we do by continually improving product quality, performance, and sustainability, while providing the highest level of project support.

certified installer companies

Customer support:

90%

of questions resolved
on the first call

Manufacturing and Supply — Our UK factory has the capacity for larger orders and custom pre-terminated assemblies. And through strategically located warehouses and many distribution partners, you can be confident that product is always nearby.

Quality and Performance — Every product is rigorously tested by Leviton and third-party labs, replicating real world environments and worst-case scenarios. This ensures that margins meet our high standards and your mission critical networks will last.

Sustainability — Our focus on sustainability comes through in product designs that cut jobsite waste and environmentally friendly packaging. It's also built into our operations: the Leviton Network Solutions EMEA headquarters is the world's first network infrastructure supplier to achieve carbon neutral status in accordance with PAS 2060.

Customer Focus — With 20 sales offices worldwide, on-call customer support, data center designers, specification and application engineers, and logistics specialists, help is always nearby.

COPPER SYSTEMS

Leviton copper systems combine category-rated performance with high-density, user-friendly designs to deliver the industry's most innovative family of solutions. Whether you are supporting a large enterprise, data center, or a small business infrastructure, we have the system to fit your needs. Refer to the system features below and on the following pages for an overview of our three copper system brands: Atlas-X1, eXtreme, and Plus.

| SYSTEM FEATURES | Category 8 solutions |
|-----------------|---|
| | Plenum-rated for use in air handling spaces |
| | High-performance wireless and AV support |
| | Advanced features (icons, shutters) for clear network ID and protection |
| | Unified form factor (Cat 5e to Cat 8) and termination style for easy migration |
| | Category designation on jack face |
| | 13 color options |
| | Retention Force Technology™ in jacks protects tines and increases longevity |
| | Jack pin array geometry minimises arcing/pitting damage in Power over Ethernet (PoE) applications |
| | Exceeds PoE standards up to 100 watts |
| | Full range of EuroClass cables |
| | Component-rated products available |
| | Third-party channel tested and verified |
| | Performance exceeds the standard |
| | Shielded options for EMI/RFI protection |
| | High-density UTP and shielded shorter depth jacks to fit shallow backboxes |

Atlas-X1

Mission Critical

Premier category-rated system that delivers the highest level of verified performance and reliability. Supports high-performance wireless, high-definition AV, and high-power PoE applications.

eXtreme

Enterprise

Pairs high quality and performance with a user-friendly design to support fast, easy installations.

Plus

Enterprise, Light Commercial

Proven performance and simple installation features allow for streamlined deployment.

Jacks **A8**

Jacks

Leviton copper jacks go through rigorous testing to ensure the highest levels of quality and reliability. Whether supporting mission-critical applications with Atlas-X1®, or enterprise with eXtreme® and Plus jacks, Leviton has the connectivity solution for your needs.

CATEGORY-RATED JACKS | Atlas-X1® QuickPort®

ATLAS-X1 COMPONENT-RATED UTP & SHIELDED QUICKPORT JACKS

- Innovative wire manager and door-release levers support quick, repeatable terminations
- Tool-free design requires no specialized termination tools
- Patented Retention Force Technology™ (RFT) protects against tine damage and maintains contact force between plug and jack, preventing arcing from intermittent disconnects in PoE applications
- Interchangeable icons available (voice, data, AV, and blank), color-coded to match the jack face
- Jack with internal shutter is available to protect ports from dust, debris, and contaminants
- Shielded jacks provide additional EMI/RFI protection, signal isolation, and alien crosstalk (AXT) suppression
- Unified form factor and termination method, from Cat 5e to Cat 8
- Tested and approved for use in air-handling spaces (plenum rating) in accordance with UL Standard 2043
- PoE optimized tine geometry prevents arcing damage where plug and jack make contact, extending the life of the jack and ensuring maximum performance (see specification sheets for full PoE capabilities)
- Solid metal body dissipates 53% more heat than plastic, minimising damage from excess heat in PoE applications

A

B

C

D

EXTREME UTP QUICKPORT JACKS

- Patented Retention Force Technology™ (RFT) protects against damage from 4- or 6-pin plugs
- Pair Separation Towers facilitate quick, effective termination
- Compatible with Fluke JackRapid™ Punchdown Tool for quick and easy terminations
- Cat 6A jack includes patented Cone of Silence™ for alien crosstalk (AXT) suppression
- Patented large-format, tear-away, dual-layer wiring guide
- Supports PoE; see specification sheet for full capabilities
- Made in the USA

GIGAMAX UTP QUICKPORT JACKS

- Single T568A or T568B wiring labels simplify terminations
- Narrow jack profile for high-density installations
- Compatible with Fluke JackRapid™ Punchdown Tool
- Durable one-piece frame built for longevity
- Supports PoE; see specification sheet for full capabilities
- Made in the USA

SPOTLIGHT

GreenPack™

Leviton Atlas-X1® Cat 6 and Cat 6A, and eXtreme Cat 6A jacks are available in GreenPack bulk packaging. The convenient packages of 12 jacks, available in shielded and UTP, provide contractors with an efficient option for large-scale projects and installations, with fewer individual parts to manage and less jobsite waste. Each bulk pack features:

- Easy to open, reusable packaging
- Protection for all included components
- Choice of three jack colors for better network planning
- 100% recyclable packaging

Atlas-X1 and eXtreme jacks are compatible with all Leviton QuickPort products.

CATEGORY-RATED JACKS | Plugs & Adapter Bezels

CAT 6A PLUG

- Cat 6A Universal Tool-Free plug offers easy field termination without special tools and terminates from 26- to 22-gauge solid or stranded conductors, supporting shielded and UTP applications

CAT 6 PLUG

- Cat 6 plug provides quick UTP wire terminations, with clear housing for wire sequence verification and cable feedthrough plug opening for crimp precision

JACK ADAPTER BEZELS

- Jack adapter bezels allow QuickPort Jacks to be installed in third-party wallplates and housings
- Jack adapter bezels work with all QuickPort Jacks

SPOTLIGHT

Tool-Free Termination with Atlas-X1® Jacks

The **Atlas-X1 jack simplifies terminations** with a unique tool-free design. Once dressed and excess cable is trimmed away, the wire manager seamlessly inserts into the back of the jack. Once the doors are closed around it, the termination is complete. It's that simple. If re-termination is required, the door release levers reopen to remove the wire manager, saving valuable time on re-terminations.

You can see step-by-step termination videos at Leviton.com/ns/videos.

CATEGORY-RATED JACKS | 10GPlus Cat 6A, Cat6Plus Cat 6 & GigaPlus Cat 5e

10GPLUS CAT 6A COMPONENT-RATED SHIELDED TOOL-FREE SNAP-IN JACK

- High electrical performance with ample headroom in installed links
- Component performance certified by third-party testing labs
- Tool-free design requires no specialized termination tools
- 360° screen: rear contact features ensure contact to the cable shields and good EMI resistance
- Quick release function supports fast, safe, repeatable terminations

10GPLUS CAT 6A UTP TOOL-FREE SNAP-IN JACK

- Rear, top, or side entry cable configuration for maximum flexibility
- Tool-free design requires no specialized termination tools

CAT6PLUS CAT 6 SHIELDED TOOL-FREE SNAP-IN JACK

- High electrical performance with ample headroom in installed links
- Tool-free design requires no specialized termination tool
- 360° screen: rear contact features ensure contact to the cable shields and good EMI resistance
- Quick release function supports fast, safe, repeatable terminations

SPOTLIGHT

Fast and Easy Terminations with eXtreme® Jacks

eXtreme jacks feature **Pair Separation Towers** that make it easy to untwist and separate conductors, while the Fluke JackRapid™ Punchdown tool dramatically cuts down on installation time by seating and cutting all wires at once. The JackRapid Tool comes with QuickPack orders of 150 eXtreme Cat 6A and Cat 6 Jacks.

You can see step-by-step termination videos at Leviton.com/ns/videos.

QUICKPORT® AV JACKS, COUPLERS & BLANKS

- HDMI® coupler works with HDMI Type A connectors
- 3.5 mm Stereo Jack facilitates classroom, workstation, and computer audio applications
- Coax F-Connector Couplers are SCTE compliant and support signals up to 3 GHz
- QuickPort blank inserts secure unused ports in wallplates and housings for future expansion

Compatibility References:

See pages A25-A26 for patch panel and jack compatibility.

FEATURED PRODUCTS

e2XHD Snap-In
Cassette Patching
System **A15**

1RU 48-Port Flat
& Angled Shielded
Panels **A16-A17**

Patch Panels & Cross Connect

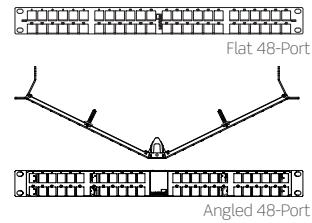

Choose Leviton for all your patch panel needs. Our e2XHD high-density panels make patching easier than ever, using snap-in copper and fiber cassettes. Other popular styles include the 1RU 48-port, component-rated Cat 6 110-style, and Snap-In Jack solutions. Additional UTP, shielded, and angled styles round out the industry's largest selection of patch panels.

PATCH PANELS & CROSS CONNECT | Selection Guide

e2XHD Snap-In Cassette Patch Panels ▶ A15

These high-density panels are designed for data center applications where fast, single-click deployment and simple maintenance are important. They accept both UTP and shielded copper as well as fiber e2XHD snap-in cassettes in the same panel.

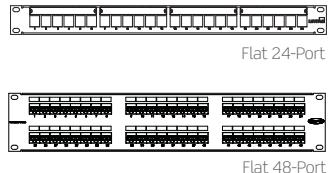

Available Styles: Flat | Angled

Flat Patch Panels ▶ A15, A16, A18-A21

Traditional, flat profile works well in almost any application. Most flat panels include rear cable management bars. Flat panels with angled ports also available.

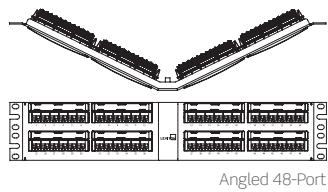

Available Styles: 110-Style | LSA-Style | QuickPort | Snap-In-Jack

Angled Patch Panels ▶ A17

Recommended for use in racks to optimize patch cord management and rack space utilization.

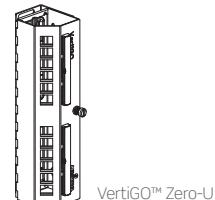

Available Styles: 110-Style | QuickPort | Snap-In-Jack

Zero-U Patch Panels ▶ A17

VertiGO™ panels are recommended for use in data center cabinets, or for any application that needs connectivity outside of the traditional 19-inch rack space. Vertical channel models provide cable routing and protection.

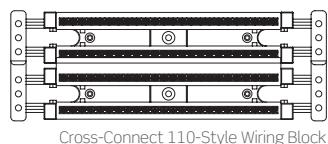

Available Styles: QuickPort

Cross-Connect ▶ A23-A24

Dependable, flexible, and cost-effective, 110-style and 66-block cross-connect products are ideal for telecommunications rooms and distribution frames.

Available Styles: Cat 6A | Cat 6 | Cat 5e

SPOTLIGHT

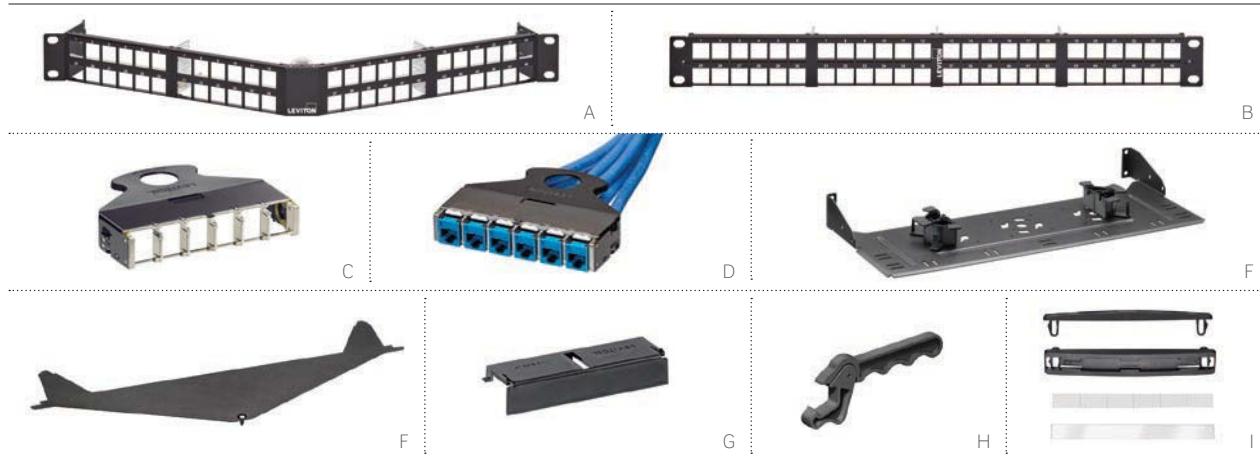

Mini Enclosures for Non-Traditional Network Areas

The Opt-X SDX Mini Wall-Mount Enclosure provides simple deployment and flexible mounting options for remote network hubs, non-traditional network areas, and other areas with extreme space constraints. It accepts six copper ports by using a QuickPort adapter plate (5F100), or up to 24 LC fibers or 12 SC fibers using an SDX cassette or adapter plate.

Learn more on page B20.

The e2XHD Snap-In Cassette Patching System includes 1RU panels, copper and fiber snap-in cassettes, and accessories for additional cable protection and management. The e2XHD cassettes quickly snap in and pull out of the high-density panels, making installation, moves, adds, and changes easier than ever.

- Panels allow a mix-and-match of Leviton fiber and copper snap-in cassettes
- Cassettes are available empty or on pre-terminated trunks (see page A35)
- UTP copper jacks easily snap into cassette after termination
- System accessories include rear cable managers, blank cassette inserts for unused cassette openings, and a cover for the angled panel, minimizing dust or debris

Compatibility References:

See pages A25-A26 for patch panel and jack compatibility.

PATCH PANELS | Flat QuickPort® > UTP & Shielded

FLAT UTP QUICKPORT PATCH PANELS

- Standard-density 24- and 48-port panels are available with white blocks or patented magnifying lens label holder
- Silk-screened port numbers on panel front
- High-density 1RU 48-port maximize rack space and reduce costs in high-density applications

ATLAS-X1® FLAT SHIELDED QUICKPORT PATCH PANELS

- Shielding protects against electromagnetic interference (EMI) and radio frequency interference (RFI), and provides excellent alien crosstalk (AXT) suppression
- Includes appropriate earthing hardware
- High-density 1RU 48-port option maximizes rack space and reduces costs in high-density applications

See Section D for Cable Management Solutions and Accessories.

49005-CMB included with all flat panels at left, unless otherwise noted.

* = Cable management bar sold separately.

Cat 6A/6/5e patch panels are kitted with black 6110G, 61110, or 5G110 jacks.

QuickPort jacks are available on pages A8-A9.

Compatibility References:

See pages A25-A26 for patch panel and jack compatibility.

SPOTLIGHT

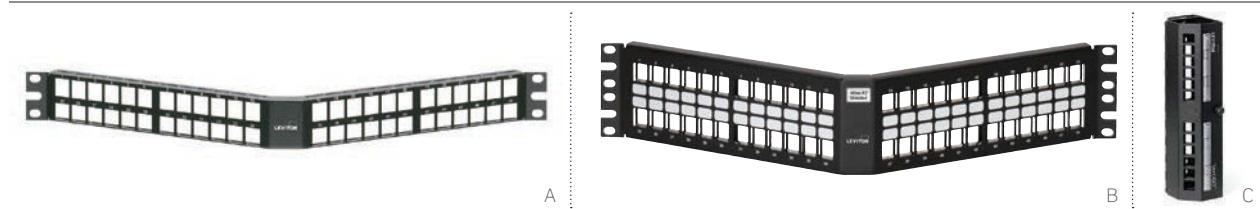

New Cable Management Clip from Leviton

Manage up to 24 individual cables with the new, easy-to-install Cable Management Clip. The user-focused design is engineered to speed deployment, quickly snapping onto Leviton cable management bars without any tools or tie wraps to streamline installation and maintenance.

The cable management clip is compatible with flat QuickPort® and 110-style panels, and come kitted with flat 110-style Cat 6A (6A586-Bxx) and Cat 6 (69586-Bxx) panels. The result is easier, neater, more efficient network management, with improved density for larger diameter cables and discrete cable retention at the rear of the patch panels.

See page D6 for more information.

ANGLED UTP QUICKPORT® PATCH PANELS

- Angled design conserves rack space by routing patch cords directly into vertical cable management
- Angled design facilitates proper bend radius and simplifies termination
- Include white write-on blocks
- Select panels include patented magnifying lens label holders for easy reading

See Section D for Cable Management Solutions and Accessories.

49006-AMB — Recommended angled rear cable management bar

49254-BC1 — Recommended angled transitional cover

ATLAS-X1® ANGLED SHIELDED QUICKPORT PATCH PANELS

- Shielding protects against electromagnetic interference (EMI) and radio frequency interference (RFI), and provides excellent alien crosstalk (AXT) suppression
- Include appropriate grounding hardware
- High-density 1RU 48-port option maximizes rack space and reduces costs in high-density applications

VERTIGO ZERO-U UTP QUICKPORT PATCH PANEL

- Can be mounted to a ladder tray, wire basket, under a raised floor, or onto modular furniture
- QuickPort openings
- Low-profile design fully covers jacks
- Improves cabinet center airflow by routing rear cable along outer edges
- Hinged doors provide easy access to termination field
- Patented magnifying lens label holders facilitate easy reading

Compatibility References:

See pages A25-A26 for patch panel and jack compatibility.

SPOTLIGHT

Magnifying Lens Label Holder

Available with a wide selection of Leviton patch panels, Leviton patented magnifying lens label holders ensure visibility of port labels for easy identification of individual port designations.

PATCH PANELS | Snap-In-Jack Patch Panels

SNAP-IN-JACK PATCH PANELS

- Modular design accepts QuickPort® and Plus Jacks (see A25 for compatibility)
- Staggered design offers additional crosstalk performance in UTP 10GPlus systems
- Unique 'In-Line' angled port panel facilitates cord routing directly into the vertical side management, saving on space in the rack
- Panels include port numbering and individual preprinted port labeling area

24-PORT COLORED INSERT SNAP-IN-JACK PATCH PANELS & ACCESSORIES

- Allows for colored inserts for individual port/service identification
- Comes with black inserts, optional colors sold separately
- Includes detachable rear manager

Compatibility References:

See pages A25-A26 for patch panel and jack compatibility.

PATCH PANELS | Flat & Angled 110-Style > UTP

FLAT UTP 110-STYLE PATCH PANELS

- 1RU 12- or 24-port, 2RU 48-port, and 4RU 96-port configurations
- 6-port RJ-45 modules on front, and 110-style punchdowns on rear
- Includes color codes for T568A and T568B wiring schemes
- Cat 5e and Cat 6 include 25-pair wiring schemes
- Select panels include patented magnifying lens label holders for easy reading
- Patented Retention Force Technology™ (RFT) protects against tine damage from 4- or 6-pin plugs, saves on costly repairs, and increases system longevity (select panels only)
- 1RU 24-port panels include factory assembled earthing jumper (select panels only)
- Select panels include the Cable Management Clip for faster, easy cable singulation

ANGLED UTP 110-STYLE PATCH PANELS

- Angled design conserves rack space by routing patch cords directly into vertical cable management
- Angled design facilitates proper bend radius and simplifies termination
- 110-style angled panels include a snap-in plastic label holder and card stock labels
- Select panels include patented magnifying lens label holders for easy reading

See Section D for Cable Management Solutions and Accessories.

SPOTLIGHT

Cat 6 110-Style Panel Feature: Earthing Jumper

Leviton Cat 6 1RU 24-Port and 2RU 48-Port Flat 110-Style Patch Panels include a factory assembled, standard compliant earthing jumper for greater flexibility. The panels also include ring and spade terminals for user-supplied earthing wire.

Spade terminal for user-supplied earthing wire.

PATCH PANELS | 10GPlus Cat 6A Patch Panels & Modules

10GPLUS CAT 6A PATCH PANELS

- Accept four shielded removable modular units, each comprising 6 ports
- Available in 1RU and 0.5RU
- Cable management/strain relief built into the panel rear
- Includes numerical port labeling and writable surface above each port
- Standard LSA IDC termination

10GPLUS CAT 6A CONSOLIDATION POINT MODULES

- Low-profile shielded module with 6 RJ-45 ports
- Include cable tie points, panel chassis locks, earthing point, and dust caps
- Available with mounting bracket for secure fixing under floors, on walls, and other areas where consolidation points are found

RECOMMENDED APPLICATIONS:

- Any Size Cabinet
- Ladder Tray
- Wire Basket
- Raised-Floor Enclosure
- Modular Furniture
- Wall-Mount

FEATURED PRODUCTS

Atlas-X1® Cat 8
Patch Cords **A28**

Pre-Terminated
Trunks **A35**

Patch Cords & Pre-Terminated Trunks

Our copper patch cords and pre-terminated trunks are designed to ensure the highest levels of performance, reliability, and longevity whether supporting mission-critical, large enterprise, or small business applications. You can also custom configure your assemblies for length, jack type, and more.

PATCH CORDS | Cat 8 & Cat 6A Patch Cords

ATLAS-X1® CAT 8 PATCH CORDS

- Outside diameter of 6.2 mm ensures ease of management
- Dual-listed CMR and LSHF/LSZH materials as standard
- Provides excellent alien crosstalk suppression and EMI/RFI protection
- Part of a complete Atlas-X1 Cat 8 shielded system for 25/40GBASE-T networks

CAT 6A PATCH CORDS

- Factory-made and tested 26-gauge patch cords offer guaranteed quality and optimum performance
- LSHF/LSZH materials as standard
- Low-profile boots for higher density blade connectivity
- Short boot design reduces installed bend radius for limited depth applications
- Universal cord can be used in either UTP or shielded channels
- Compliant with Cat 6A and Class E_A standards
- Supports Power over Ethernet (PoE) - see specification sheet at Leviton.com/ns/emea for full PoE capabilities

CAT 6A SMALL DIAMETER HIGH-FLEX PATCH CORDS

- Outside diameter of 0.185"
- Bend radius is a narrow 0.74 inches, versus 1.0 inch for typical Cat 6A patch cords
- Dual rated for LSZH and CM applications
- Short boot design (24 mm) reduces installed bend radius for limited depth applications
- Accommodate use in ultra high-density switches, routers, and other electronics
- Same cord for UTP or shielded installations
- Tested and verified to meet ANSI/TIA-568-2.D and ISO/IES 11801-1 component requirements
- Supports Power over Ethernet (PoE) - see specification sheet at Leviton.com/ns/emea for full PoE capabilities

PATCH CORDS | Cat 6A Patch Cords

CAT 6A STRANDED PATCH CORDS

- Factory-made and tested 26-gauge patch cords offer guaranteed quality and optimum performance
- LSHF/LSZH materials as standard
- Low-profile boots for higher density blade connectivity
- Shielded cable is standard for stranded cords
- Designed to have a repeatable, controlled and consistent assembly, ensuring optimum performance
- Backwards compatible to Cat 6 and Cat 5e
- Compliant with Cat 6A and Class E_A standards

CAT 6A U/FTP SOLID CPR RATED PATCH CORDS

- Factory-made and tested 26-gauge solid conductor patch cords offer guaranteed quality and optimum performance
- LSHF/LSZH materials as standard
- Low-profile boots for higher density blade connectivity
- Designed to have a repeatable, controlled and consistent assembly, ensuring optimum performance
- Backwards compatible to Cat 6 and Cat 5e
- Compliant with Cat 6A and Class E_A standards

CAT 6A PATCH CORDS, CMR

- Provide exceptional alien crosstalk (AXT) suppression and EMI/RFI protection in Cat 6A channels
- Patch cord bend radius is 24 millimeters (0.96 inches)
- Cat 6A cord can be used for UTP or shielded installations
- Cords feature narrow-profile boot for less congestion in high-density applications
- Ergonomic release tab allows for quick and easy connections and disconnects
- Tested and verified to meet ANSI/TIA-568.2-D and ISO/IEC 11801-1 component requirements
- Supports PoE; see specification sheet for full PoE capabilities
- Country of origin: USA

PATCH CORDS | Patch Cord Clips & VXC™ Coupler

A

B

C

PATCH CORD COLOR CLIPS

- Compatible with 6AS10, H6A10, AC6PCF, and 6H460 patch cords
- Clips to Leviton patch cords, providing additional color coding options
- Color Clips accept Atlas-X1 Icons (ICONS-ICx), with options for identifying Voice, Data, or AV
- Can be easily snapped into place without having to disconnect patch cord
- Colors match Leviton Atlas-X1® jack colors

VXC COUPLER

- Universal (UTP/shielded) solution for terminating cables at WAPs and smart building devices
- Coupler creates durable connection without need for punchdown or other proprietary tools
- Tested and approved for use in air handling spaces (plenum)
- Supports Power over Ethernet (PoE) — see specification sheet at Leviton.com/ns/specsheets for full PoE capabilities

SPOTLIGHT

Leviton Cat 6 High-Flex Patch Cords

Leviton Cat 6 High-Flex Patch Cords reduce patch cord density in a 24-port patch panel by 38% when compared to typical Cat 6 patch cords. These versatile cables support high-speed data applications, are Power over Ethernet compatible, and are tested and verified to meet ANSI/TIA-568.2-D component requirements.

The snagless plug design with integrated strain-relief boot, narrow 0.60 bend radius, and dual-rated cable jacket (CM/LSZH) offer flexible patching and superior performance for high-density switches, routers, and other electronics.

PATCH CORDS | Cat 6 High-Flex Patch Cords

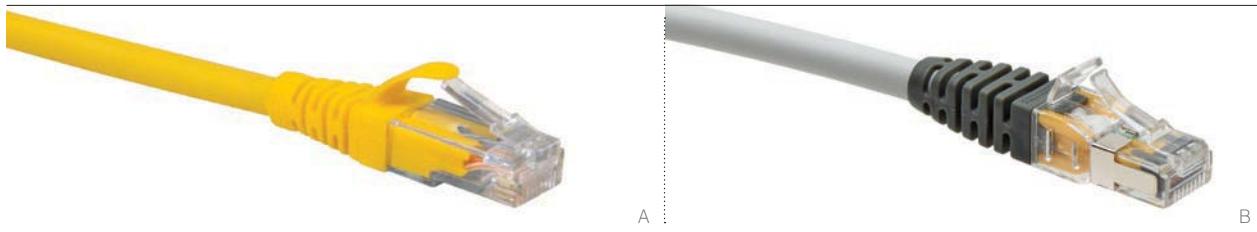

CAT 6 HIGH-FLEX PATCH CORDS

- Bend radius is a narrow 0.60 inches, versus 1.0 inch for typical Cat 6 patch cords
- Dual-rated cable jacket (CM/LSZH)
- Snagless plug design with integrated strain-relief boot
- Tested and verified to meet ANSI/TIA-568.2-D and ISO/IEC 11801-1 component requirements
- Supports Power over Ethernet (PoE) — see specification sheet at Leviton.com/ns/emea for full PoE capabilities.

Cat 6A Small OD High-Flex Patch Cords Improve Density, Bend Radius and Manageability

Small-diameter 28 AWG patch cords offer big advantages in data center and enterprise networks. Leviton's Cat 6A Small Diameter High-Flex Patch Cords help data center technicians with installation and maintenance in high-density patching environments. They also give network managers additional flexibility and improved bend radius at wireless access points and remote smart building devices, while supporting higher data rates up to 10 Gb/s. The short plug and high-flex boot reduce the amount of space required in applications with limited depth behind WAPs, back boxes and furniture plates.

SECURE RJ SYSTEM

- Compatible with industry-standard RJ ports in most network equipment, devices, patch panels, and work area outlets
- Same-color extraction tool disengages color-matched patch cords and port blockers
- Transparent housing allows color coding without blocking visibility to link/status LEDs on electronic equipment
- Port blocker prevents unauthorized network connection and protects open, unused ports

PRE-TERMINATED TRUNK BREAKOUT & ALIGNMENT OPTIONS

Choose from five different alignments, or call +44 (0) 1592 778494 to discuss options.
e2XHD Copper Trunks will always have an even alignment on the cassette end(s).

| | MINIMUM BREAKOUT LENGTHS | ALIGNMENT OPTIONS |
|---------------------|--------------------------|--|
| Copper Trunks | • 50 cm minimum | <ul style="list-style-type: none"> • Even • Stagger cable 1 shortest • Stagger cable 1 longest • Stagger in pairs, cable 1 longest • Stagger in pairs, cable 1 shortest |
| e2XHD Copper Trunks | • 50 cm minimum | <ul style="list-style-type: none"> • Even |

PRE-TERMINATED COPPER TRUNKS

- Custom configured for length, jack type, and more
- Fast and easy installation with reduced labor costs
- 100% factory tested, with test results available
- Cat 6A trunks all use component-rated jacks, which provide guaranteed performance in short lengths
- Customized breakout length improves installation flexibility and appearance
- Optional pulling eye protects jacks and eases installation
- Pre-terminated assemblies are eligible for limited product, system, and performance warranties

E2XHD COPPER TRUNKS

- e2XHD cassettes terminated to trunks in Cat 6A work exclusively with e2XHD Flat or Angled patch panels (see page A18)
- Available with Atlas-X1® jacks
- Custom configured for length, jack type, and more
- Fast and easy installation with reduced labor costs
- 100% factory tested, with test results available
- Cat 6A trunks all use component-rated jacks, which provide guaranteed performance in short lengths

Trunk cable with CP Modules

CAT 6A SHIELDED PRE-TERMINATED COPPER TRUNKS WITH CP MODULES

- Consolidation Point (CP) Module offers Category 6A performance in a compact package
- Each module comprises of six RJ-45 ports supplied as a low-profile stand-alone module, or with a mounting bracket for secure fixing
- Pre-terminated and tested in a controlled factory environment for reliable product performance
- Available in Euroclass B2ca, Cca, Dca, and Eca, ensuring full compliance to local regulation
- Simplified deployment, reduced installation time, and limited requirement for field testing
- Industry-leading small-diameter Cat 6A shielded zone cable assemblies save pathway and cabinet space and are 30% lighter than comparable alternatives
- Make-to-order trunks allow for exact lengths, reducing onsite waste and minimizing packaging disposal

FEATURED PRODUCTS

Cat 8 Cables **A39**

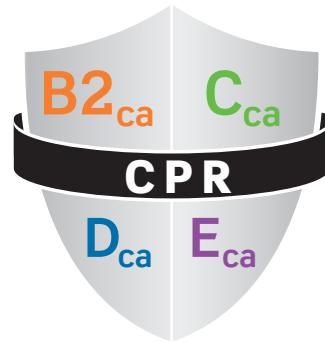

Copper Cables

Leviton offers best-in-class copper cables that are tested to exceed industry standards. From Category 8 cable for the latest 40 Gb/s data center networks to flexible and reliable cable for Gigabit enterprise applications, we have the ideal solution for all types of demanding networks.

CPR: SAVING LIVES, PROTECTING BUILDINGS

In Europe, Construction Products Regulation (CPR) introduced new EuroClass cabling levels, as shown in the table below. The levels are designed to help save lives and protect buildings by enforcing a hierarchical system defining safety performance requirements in fires. Leviton offers datacom cabling in copper and fiber in different EuroClass levels, including Eca, Dca, Cca, and B2ca. This gives customers more options to meet the needs of their unique cabling environments and comply with CPR requirements specific to each EU member state.

The final decision on required EuroClass performance levels lies with local authorities within each EU country. Always check local regulations to confirm what cable classification is required for a specific environment.

| EUROCLASS LEVEL | DESCRIPTION | EXAMPLE ENVIRONMENTS |
|-----------------|---|--|
| B2ca | Very High Fire Protection Self Extinguishing | Hospitals, airports, and fire exits in public buildings (high density of people or people with limited mobility) |
| Cca | High Fire Protection Self Extinguishing | Public buildings, hotels, schools, or office buildings (medium density of people) |
| Dca | Moderate Fire Protection Limited Emissions | Used as a minimum cable requirement for general installations in some regions |
| Eca | Basic Fire Protection | Used as a minimum cable requirement for general installations in some regions |

LEVITON LEADS THE WAY

For easy recognition of EuroClass level, Leviton copper cable is color coded. The copper cable jackets are colored as shown at left to clearly identify the level of EuroClass cable.

The color code provides several key benefits:

- Creates confidence that your team can quickly and easily determine which cables go in the appropriate locations to comply with project specifications
- Ensures that the CPR classifications that are required are communicated effectively from manufacturer to the distributor to the installer
- Easily confirms compliance to national regulations through on-site visual inspection to ensure the required CPR classification cables are installed

To learn more about CPR regulations, visit Leviton.com/ns/emea/cpr.

C

ATLAS-X1® CAT 8 SHIELDED CABLE

- 22-gauge copper conductors in S/FTP construction, with pairs individually foiled and an overall braided screen
- Shield technology designed to deliver superior alien crosstalk suppression and protect critical data from electromagnetic and radio frequency interference
- Fully backwards compatible with lower category cabling products, supporting all of the ISO/IEC 11801-1 Class FA, Class F, Class EA, Class E, and Class D applications, including 10GBASE-T and 1GBASE-T Ethernet
- Designed to give optimal performance to ISO/IEC 11801-1, IEC 61156-9, and EN 50173-1
- Use with Leviton Atlas-X1 Cat 8 Shielded QuickPort® connectors and Atlas-X1 Cat 8 patch cords to support 25 Gigabit and 40 Gigabit Ethernet performance
- Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities

CAT 7A SHIELDED CABLE

- 22-gauge copper conductors in S/FTP construction, with pairs individually foiled and an overall braided screen
- Shield technology designed to deliver superior alien crosstalk suppression and protect critical data from electromagnetic and radio frequency interference
- Specified to 1000MHz, rated to 1200MHz and suitable for use in all Class FA structured wiring cable systems
- Designed to give optimal performance to ISO/IEC 11801-1 Class FA, IEC 61156-5 EN 50173-1 and EN 50288-9-1 standards
- Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities

CAT 7 SHIELDED CABLE

- S/FTP construction, with pairs individually foiled and an overall braided screen
- Shield technology designed to deliver superior alien crosstalk suppression and protect critical data from electromagnetic and radio frequency interference
- Specified to 600MHz, rated to 1000MHz and suitable for use in all Class F structured wiring cable systems
- Third-party verified to give optimal performance to ISO/IEC 11801-1 Class F, IEC 61156-5, EN 50173-1 and EN 50288-4-1
- Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities

CUSTOMERS IN MIDDLE EAST can find additional copper cable options on page A44.

**CAT 6A SHIELDED CABLES**

- Available in U/FTP, F/FTP and S/FTP constructions with shield technology designed to deliver superior alien crosstalk suppression and protection for critical data from electromagnetic and radio frequency interference
- Small U/FTP diameters, enable easier installation, improved airflow and cooling in congested pathways and a smaller bend radius in tight spaces
- Rated to 500MHz and are suitable for use in all Class EA structured wiring cable systems
- Third-party verified to give optimal performance to ISO/IEC 11801-1 Class EA, IEC 61156-5, EN 50173-1, EN 50288-10-1 and ANSI/TIA 568.2-D Cat 6A
- Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities

CABLE | Cat 6A UTP & Cat 6 Shielded Cables

A

B

CAT 6A UTP CABLES

- Unshielded copper pairs separated by a non-metallic cross filler for stronger signal strength and less vulnerability to noise interference
- Designed to maximize installation efficiency, enabling installers to terminate with Leviton connectivity twice as fast as products that incorporate pair separators in their UTP cable construction
- All EuroClasses achieve s1a smoke rating, the best smoke emissions rating available
- Third-party verified to give optimal performance to ISO/IEC 11801-1 Class EA, IEC 61156-5, EN 50173-1, EN 50288-10-1 and ANSI/TIA 568.2-D Cat 6A
- Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities

CAT 6 SHIELDED CABLES

- Available in F/UTP, U/FTP, F/FTP and S/FTP constructions with shield technology designed to deliver superior alien crosstalk suppression and protection for critical data from electromagnetic and radio frequency interference
- Small F/UTP and U/FTP diameters reduce weight, enable easier installation, improve airflow and cooling in congested pathways and achieve a smaller bend radius in tight spaces
- Optimal support for Gigabit Ethernet
- Third-party verified to give optimal performance to ISO/IEC 11801-1 Class E, IEC 61156-5, EN 50173-1, EN 50288-5-1 and ANSI/TIA 568.2-D Cat 6
- Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities

SPOTLIGHT

Connect Mission-Critical Networks with Atlas-X1®

Atlas-X1 jacks feature an innovative wire manager that helps support fast, tool-free termination, reducing installation time. And all Atlas-X1 jacks feature the same termination process across Cat 5e, 6, 6A, and 8 cabling systems.

The jack is ideal for deployment in mission-critical networks, with a solid metal body that provides unparalleled durability in both UTP and shielded versions, and patented Retention Force Technology™ (RFT) that prevents tine damage and increases system longevity. **Jacks are shown on page A8.**

CUSTOMERS IN MIDDLE EAST can find additional copper cable options on page A44.

SPOTLIGHT

VXC™ Coupler

The Leviton VXC Coupler is a cost-effective solution for installing WAPs, cameras, or other IoT devices. The coupler connects two pieces of Cat 6A cabling, giving integrators the ability to install and test a permanent link or MPTL, while keeping the flexibility to fine-tune the placement of the final device. It creates a durable connection without the need for punchdown or other proprietary tools.

See page A30 for details.

CABLE | Cat 6A & Cat 6 UTP Cables (Additional Cables Available in Middle East Only)

CAT 6A UTP CABLES (MIDDLE EAST ONLY)

- Riser (CMR) and plenum (CMP) Cat 6A products are listed in this section. For LSZH, IEC 60332-1 rated products see page A43
- Unshielded copper pairs separated by a non-metallic cross filler for stronger signal strength and less vulnerability to noise interference
- Provides bandwidth required for multimedia, video, and other future applications
- Third-party verified to give optimal performance to ANSI/TIA 568.2-D Cat 6A and ISO/IEC 11801-1 Class EA standards
- Available in Supports Power over Ethernet (PoE) — see specification sheets for full PoE capabilities

FEATURED PRODUCTS

Palm Termination Tool **A46**

Wire-Punchdown / Termination Tool **A46**

Copper Tools & Labeling

We have everything you need to terminate and test our copper solutions.

The ergonomic Palm Termination Tool, designed by and for installers, offers comfort-grip or rack-mounted positioning for termination, a sturdy jack holder, and a wire-supporting retainer. The Wire-Punchdown Termination Tool enables one-step punchdown of 110-style or LSA-style IDCs with a single push on the handle. Specialised termination tools, test equipment, crimping tools, and other accessories complete the collection.

PALM TERMINATION TOOL

- Overmolded ergonomic soft grip
- Easy-to-see wiring labels
- Jack holders provide stability for punchdown
- Incorporated retainer supports cable during termination
- Integrated holes allow rack-mounting of the Palm Tool for patch panel terminations
- Compatible with eXtreme®, GigaMax®, and AV QuickPort® jacks

EZ-RJ45™ CRIMP TOOL

- Quick, cost-effective UTP wire terminations
- Built-in cutter and stripper that crimps and cuts wire

CUTTING TOOLS

- Klein Tools™ Electrician's Scissors are excellent for cutting and stripping copper cable as well as trimming center splines and rip cords
- Klein Tools Flush Cutter neatly trims individual cable wires flush to jack body to prevent shorts in metal housings (recommended for Atlas-X1® and tool-free Plus jacks)

TERMINATION TOOLS & BLADES

| DESCRIPTION | PART NO. |
|---|-----------|
| [A] Palm Termination Tool, for eXtreme, GigaMax, and AV QuickPort Jacks | 47615-PTT |
| [B] Wire-Punchdown/Termination Tool (blades sold separately) | 49553-814 |
| [C] 110 IDC Blade | 49553-110 |
| 66 IDC Blade | 49553-066 |
| EZ-RJ45 Crimp Tool | 40989-ACT |

MULTI-PAIR TERMINATION TOOLS & ACCESSORIES

| | |
|---|-----------|
| [F] Mass-Termination Multi-Pair Tool Handle with Cat 6, 4-pair head | 49553-TTH |
| Mass-Termination Replacement Head, Cat 6, 4 pair | 49553-64H |

CUTTING TOOLS

| | |
|---|-----------|
| Klein Tools Electrician's Scissors | 49886-SIS |
| Klein Tools Flush Cutter (must be ordered in increments of 5) | 49886-FCS |

MULTI-PAIR TERMINATION TOOL

- Designed for 110-style wiring blocks
- High-impact, spring-loaded handle for one-punch termination of multiple pairs
- "Blade-in" and "blade-out" options
- Includes 4-pair, Cat 6 head
- Cat 6 head available individually

WIRE-PUNCHDOWN / TERMINATION TOOL

- Punches and trims each wire with just a single push of the handle
- Adjustable impact setting for minimal physical effort
- Spare blade storage in handle chamber
- Compatible with 110 IDC, 66 IDC, and LSA IDC blades
- Terminate 22-, 24-, or 26-gauge wire

WORK-AREA LABELING SOLUTIONS

| DESCRIPTION | PART NO. |
|---|-----------|
| [D] QuickPort® Shutter Kit (50 shutters) | 51084-ICN |
| White Label Kit | 51084-XLB |
| Color Label Kit includes gray, orange, red, yellow, green, blue, purple, and brown (2 sheets of each color) | 51084-CLB |
| Labels and Windows for Housings & Wallplates on page C10 | 41080-IDW |
| Labels and Windows for Stainless-Steel and Angled Wallplates on pages C11 and C12 | 43080-IDW |
| Pre-printed Port Labels, black ink, 10 sheets per package | 41080-LEB |

PATCH PANEL LABELING SOLUTIONS

| | |
|---|-----------|
| [E] Adhesive Holder and Labels Kit for QuickPort Panels (supports 24 ports) | 49257-QHD |
| Adhesive Holder and Labels Kit for 110-Style Panels (supports 24 ports) | 49257-I24 |
| Designation Kit Replacement for 110-Style Panels (supports 24 ports) | 69585-IDL |

110-STYLE LABELING SOLUTIONS

| | |
|--|-----------|
| Cat 6 Label Kit, 6 label strips per kit | 41LBL-60W |
| Cat 5e Label Kit, 6 label strips per kit | 41LBL-00W |

SPOTLIGHT

Leviton Palm Termination Tool

Use the Leviton Palm Termination Tool to quickly and easily punchdown jacks at the job site. The Palm Termination Tool was designed with contractor input and offers an ergonomic comfort grip, increased jack stability, and integrated holes that allow rack mounting for QuickPort panel terminations. The Palm Termination Tool is compatible with eXtreme®, GigaMax®, and AV QuickPort jacks.

Note: Palm Tool is not compatible with Plus Jacks.

FIBER PLATFORMS

Whether your installation is small or large, simple or complex, you can rely on Leviton for a network patching platform that meets your requirements. From cloud data center to remote telecom room, from service provider to enterprise office building, Leviton solutions are versatile enough to meet specific customer demands, ensuring migration options for future bandwidth growth and strong return on infrastructure investment.

PLATFORM FEATURES

Ultra-high-density (144 fibers per RU)

High-density (96 fibers per RU)

Standard density (72 fibers per RU)

Angled panels eliminate need for patch cord cable managers

Enclosures with individual sliding trays minimize impact on surrounding fibers

Enclosure trays lock into place when open, simplifying network maintenance

One-handed, single-click cassette installation for easy deployment

10/40/100/200/400 Gb/s ultra low loss migration simplifies tech upgrades

OM3 / OM4 / OS2 fiber types for backward compatibility

Precision-molded adapter plates for durable network connections

Traffic Analysis Points (TAPS) provide monitoring of networks

Copper and fiber capability for network flexibility

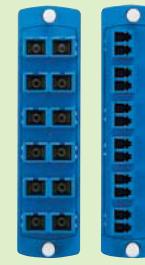

Zero rack-unit option

Cassettes with adjustable rear MTPs for improved bend radius

Field-splicing capability for flexibility and MACs

FEATURED PRODUCTS

Enclosures & Panels **B12**

HDX Adapter Plates & Cassettes **B13**

HDX Platform

Data centers and telecommunications rooms are rapidly outgrowing their footprint as they attempt to meet increasing bandwidth demands. The Leviton HDX cassette-based platform offers optimum patching capacity in areas where space is at a premium. Using HDX Adapter Plates, Cassettes, and Splice Modules, the enclosures and panels allow up to 144 fibers with LC connectors, or 1,728 fibers with 24-fiber MTP® connectors.

UHDX & HDX RACK-MOUNT ENCLOSURES & PANELS

- Enclosures and panels accept Leviton HDX Adapter Plates, Cassettes, and Splice Modules
- 1RU flat and angled panels allow open access to patch cords and trunks
- Angled panels eliminate the need for horizontal patch cord cable managers
- HDX Panels with Magnifying Lens provide Port ID labelling of network
- Individual sliding trays in enclosures allow easy access to fiber connectors in dense applications
- Hinged front enclosure doors provide easy means to install, remove, and update port ID labels
- UHDX enclosures available in 1RU, 2RU, and 4RU sizes, with up to 144 fibers per RU with LC connectors or 1,728 fibers with 24-fiber MTP® connectors
- HDX enclosures available in 1RU, 2RU, 3RU, and 4RU sizes, with up to 96 fibers per RU with LC connectors or 1,152 24-fiber MTP connectors

ACCESSORIES

- Cable clamp kits minimize excessive pulling, bending, and crushing
- Brush guards minimize dust buildup in rear of enclosure
- Rear cable manager (sold separately) supports fiber cables and snaps directly into panels without tools
- ORU, 1RU, and 2RU cable managers provide protection and routing of patch cords for flat panels

RECOMMENDED APPLICATIONS:

HDX PLATFORM | MTP®, Breakout & TAP Cassettes

HDX & HDX2 MTP CASSETTES

- Easy to migrate from 10 to 40, 100, 200, and 400 Gb/s when used with Leviton cable assemblies
- Configure up to 48 fibers for 24 channels (10 Gb/s) and 6 channels (40 Gb/s or 100 Gb/s)
- Available in Base 8, Base 12, and Base 24 option for optimal network flexibility
- LC internal shutters minimize dust and provide eye protection
- Universal polarity design, works in conjunction with Method B trunks

HDX2 & HDX BREAKOUT CASSETTES

- Universal polarity to maintain, transmit, and receive connections between parallel optics and SFP connectivity
- Connect to electronics with LC-style ports and aggregate SFP ports to a QSFP28 or PSM4 (100 Gb/s), QSFP+ (40 Gb/s), or CXP (120 Gb/s) port

HDX2 TAP CASSETTES

- Traffic analysis points (TAPs) provide real-time monitoring of 10 and 40 Gb/s channels (QSFP)

HDX PLATFORM | Adapter Plates, Splice Modules & Accessories

HDX ADAPTER PLATES

- Connect to field-terminated backbone cabling or pre-terminated trunks
- Visible sequential numbering to identify ports (for Tx and Rx)

HDX LC & MTP® SPLICE MODULES

- Modules integrate fiber adapter bulkhead (12 or 36 fibers) and splice holders, eliminating need for splice trays
- Innovative 12-fiber color-coded pigtail offers fusion splicing to either single fiber or ribbon fiber constructions
- LC internal shutters minimize dust and provide eye protection
- Splice Sleeves included in accessory kit
- MTP Splice Module offers field termination option to migrate from 10 to 40, 100, 200 or 400 Gb/s
- LC internal shutters minimize dust and provide eye protection

HDX 12 fiber OM4 LC Shuttered Splice Module

HDX PLATFORM | Frame, Patch & Splice Decks

HDX Platform

FIBER

HDX FIBER OPTIC DISTRIBUTION FRAME (3,168 LC CAPACITY)

- Integrated cable management and routing solutions for minimum bend radius, better slack storage, and protection
- Holds up to 22 patch and/or splice decks
- Lockable rear doors included to protect and conceal trunk cabling
- Optional front door kit (sold separately) with transparent door is lockable for additional security
- Occupies only one 2 x 2-foot tile
- Seismic rated to GR-63-CORE, Zone 4, UL 2046 Listed

HDX FRAME CAPACITY CHART

| CONNECTIVITY | MAX. FIBER STRANDS FOR PRE-TERMINATED TRUNKS | MAX. FIBER PATCHING & SPLICING | MAX FIBER FUSION SPLICING |
|---------------|--|--------------------------------|---------------------------|
| LC | 3,168 | 3,168 | N/A |
| SC | 1,584 | 0 | N/A |
| 12-Fiber MTP® | 7,776 | 9,504 | N/A |
| 24-Fiber MTP | 15,552 | 0 | N/A |
| Single Fiber | N/A | N/A | 3,168 |
| Ribbon Fiber | N/A | N/A | 9,504 |

PATCH DECK

- Accepts HDX adapter plates, cassettes, and splice modules
- 2RU height for up to 144 fibers (using LC) capacity
- Holds 6 independent sliding trays and accepts up to 12 HDX or 6 HDX2 adapter plates, cassettes, or splice modules
- Magnifying port identification label holders for better visibility
- Integrated minimum bend radius protection

See page B13-B14 for HDX Cassettes, Splice Modules, and Adapter Plates.

SPICE DECK

- Modular 3.5-inch-high deck accepts up to three independent splice deck trays
- Sliding trays are removable for ease of splicing
- Heat-shrink fusion splicing of individual 250 µm or 900 µm tight-buffer fibers or mass fusion ribbon splicing for up to 144 fibers or 72-fiber ribbon splice tray
- Each tray accepts up to two 24-fiber molded or 72-fiber ribbon splice trays

| 2RU Blank Panel | F3168-BLK |
| 24-FIBER SPLICE TRAY | |
| [F] 24-fiber Heat-Shrink-Style Molded Splice Tray (includes 60 mm splice sleeves) | T5PLS-24F |

INDUSTRY-LEADING DENSITY

One HDX Frame holds up to 22 patch decks, and occupies only one 2 x 2-foot floor tile.

BUILT-IN CABLE MANAGEMENT & ROUTING

The frame keeps pathways clean and organized, using integrated cable management for minimum bend radius, better slack storage, and protection within the frame.

SUPERIOR SCALABILITY

HDX frames can be ganged together to handle future growth with easy pass-through cross-frame routing kits. And with 24-fiber MTP connectivity, they are ideal for migration from 10G to 40G to 100G and beyond.

EASY ACCESSIBILITY

The frame's open design greatly reduces time and labor for maintenance, as it allows unobstructed access to patch cord connections. The one-tile footprint makes it easier to access the space beneath a raised floor.

ROii™ Savings Calculator

By reducing overall floor space, the HDX Fiber Distribution Platform creates significant yearly cost savings over a traditional main distribution area. Calculate your return on infrastructure investment (ROii) when installing the HDX Frame, and estimate your long-term savings over standard 19" cabinets or racks. Go to apps.Leviton.com/hdxcalculator.

SPOTLIGHT

Simplify Network Design with Universal Polarity Cassettes

Polarity is a critical part of any fiber network. It becomes more complex with multifiber cables and MPO connectors. Leviton Universal Polarity Fiber Cassettes help data center managers simplify things. The Base12 cassettes allow for the same interchangeable cassette on both ends of a Method B trunk in a fiber channel, reducing the complexity of a fiber network, ensuring consistent polarity, and streamlining network deployment.

The cassettes also include **shuttered LC adapters** with an IP5x rating keep out dust and debris, and protect technicians from laser light exposure, with no dust caps to remove, store or throw away.

SDX Platform

72 LC FIBERS PER RU

The SDX Platform, part of the Opt-X® family of fiber optic solutions, is a flexible solution designed for easy installation and maintenance. Whether it's the 2000i for data centers or 1000i and 500i for medium and small enterprise applications, each comes packed with features for better cable organization and maintainability. In addition, precision-molded SDX adapter plates, splice modules, and cable management offer the flexible connection and storage options to meet any project need.

2000i SDX 1RU/2RU/4RU RACK-MOUNT ENCLOSURES

- Accepts SDX adapter plates, splice trays, and splice modules (pages B21-B24)
- Constructed of durable polycarbonate plastic and black or white powder-coated 16 AWG steel
- Removable transparent hinged doors
- Sliding tray provides accessibility to front and rear of bulkhead after installation, and removes completely to facilitate field terminations and splicing
- 17-inch depth for high-density fiber termination and/or splicing
- Stackable and adjustable fiber rings simplify cable management
- 1RU and 2RU accept the HDX Retrofit Tray (sold separately) for higher-density applications using HDX MTP® Cassettes and Adapter Plates

1000i SDX 1RU/2RU/3RU/4RU RACK-MOUNT ENCLOSURES

- Accepts SDX adapter plates, splice trays, and splice modules (pages B21-B24)
- Sliding tray in 1RU and 2RU removes completely for easy field terminations and splicing
- 15-inch depth for high-density fiber termination and/or splicing
- Enclosures protrude 4.5 inches from mounting ears to align with Versi-Duct™ Cable Management System
- Included accessory kit consists of cable ties, mounting ear screws, and port ID label
- 1RU and 2RU accept the HDX Retrofit Tray (sold separately) for higher-density applications using HDX MTP® Cassettes

RECOMMENDED APPLICATIONS:

- Data Centers
- Equipment Room
- Entrance Facility
- Telecommunications Room
- 19" Racks and Cabinets

SDX PLATFORM | Rack-Mount Enclosures > 500i SDX

500i SDX FLUSH-MOUNT RACK ENCLOSURES

- Accepts SDX adapter plates, splice trays, and splice modules (page B21-B24)
- Flush-mount adapter bulkhead makes moves, adds, and changes easy
- One-piece removable cover allows for complete accessibility to the back of the enclosure
- Accepts injection-molded splice trays and 4-inch x 7-inch metal splice trays
- Enclosure can store up to 3 meters of 900 µm tight-buffered fiber per adapter
- Included accessory kit consists of cable ties, mounting ear screws, and port ID label
- 1RU and 3RU flush-mount panels accept SDX adapter plates and cassettes, and mount to 19-inch racks and cabinets
- Optional add-on patch cord cable management tray (sold separately) uses existing rack unit

SPOTLIGHT

High-Density Splicing with the SDX Wall-Mount Enclosure

The Large SDX Wall-Mount Fiber Enclosure is an ideal housing for high-density splicing in entrance facilities and telecommunication rooms, and it can be retrofitted in the field as a splice only enclosure. It can accommodate up to 1,728 fibers when mass ribbon fusion splicing, and up to 576 fibers with single fusion splicing.

SDX WALL-MOUNT ENCLOSURES

- Four sizes available (mini, small, medium, large) to accommodate from 24 LC to 288 LC fibers
- Locking doors and dual-door access to separate user and service sides (locks sold separately)
- Cable and cord protection simplifies dress-out and protects damage/pinchng
- Field splicing options include both splice trays and self-contained splice modules
- Mini size mounting options: wall-mount, DIN rail, zero-RU, ganging, or cubicle wall installations
- Large size can be retrofitted to allow for up to 576 single fiber fusion splicing or up to 1,728 ribbon fusion splicing
- Optional adapter bracket allows enclosures to accommodate both Leviton SDX and HDX patching platforms (see page B26)
- Accepts 6 copper ports using Quickport Adapter Plate, 5F100-6QP

SPOTLIGHT

SDX Precision-Molded Adapter Plates

Traditional adapter plate construction typically uses independent couplers inserted in a metal plate that often results in a 'rattling' of components. Leviton SDX Adapter Plates eliminate rattling and loose-fitting adapters by using precision molding and integrated adapters, improving the overall performance, functionality, and quality of construction. All multimode and single-mode SDX plates feature zirconia ceramic sleeves, providing high-performance and low insertion loss (recommended for applications requiring 10 Gbps and higher).

SDX PLATFORM | MTP® Cassettes

A

B

SDX Cassette MTP-LC Shuttered Single-Mode

SDX MTP CASSETTES

- Plug-n-play cassettes eliminate the need for field termination or splices
- Bend-insensitive fiber used in OM3/OM4 cassette
- All premium 12 fiber Base 12 MTP cassettes use low-loss MTP connectors
- Low insertion loss of 0.5 dB maximum
- 100% factory tested with test results included with each cassette
- LC internal shutters minimize dust and provide eye protection
- Universal polarity design, works in conjunction with Method B trunks

or call +44 (0) 1592 778494.

SDX 12- & 24-FIBER SPLICE MODULES

- Integrate fiber adapter bulkhead (12 or 24 fibers) and splice holders, eliminating the need for splice trays
- Individual compartments provide slack storage and bend radius guides for respective backbone cable, 900 µm tight-buffer pigtails, and fusion-spliced fibers
- Modular design allows for ease of maintenance of individual spliced fiber and allows for scaling up without impacting existing fibers

KEYQUICK™ MECHANICAL SPLICE

- Offers fast, accurate, and user-friendly mechanical splicing process
- Transparent body allows for visible light to ensure connection
- V Groove technology aligns fibers
- Average installation takes 30 seconds, with insertion loss level of 0.1 dB

SPOTLIGHT

SDX Fiber Splice Modules

SDX 12- and 24-Fiber Splice Modules protect and organize heat-shrink fusion-spliced fibers inside a fiber enclosure. Splice modules eliminate the need for individual splice trays within a fiber enclosure and provide optimal organization and slack management of fibers. Plus, the modular design enables faster field splicing and simple management of pigtails within the housing.

UNIVERSAL CABLE CLAMP KITS

- Minimize excessive pulling, bending, and crushing
- Enclosure-mount kits make cable identification easy and decrease need for tie-wraps inside enclosure
- Rack-Mount Kit ideal for vertical strain relief and strain relief at top or bottom of rack
- Compatible with UHDX and SDX rack-mount enclosures

SDX ENCLOSURE CABLE MANAGEMENT

- Fiber Cable Management Rings secure fiber slack; come in kit of four quarter-round rings
- Patch Cord Management Trays route and organize cables
- Trays mount directly to enclosures and do not require additional rack space

HDX RETROFIT TRAY & HDX-TO-SDX ADAPTER BRACKET

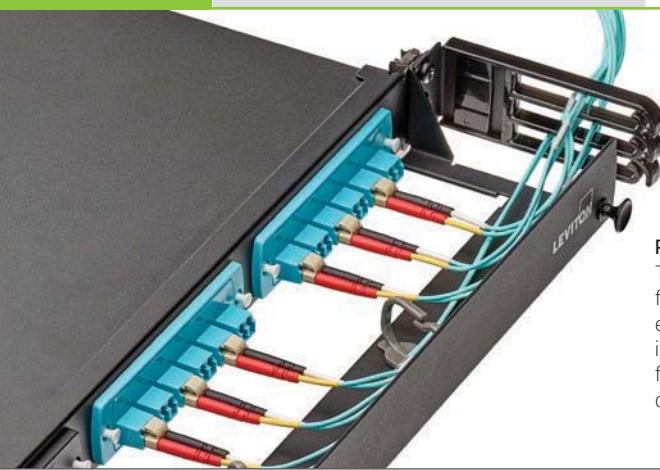

- Retrofit trays allow upgrade of SDX enclosures to accept HDX cassettes and adapter plates
- Trays allow for up to 96 LC fibers per RU
- Tray available for 1RU and 2RU 2000i and 1000i SDX enclosures
- HDX-to-SDX Adapter Bracket upgrades SDX Enclosures to accept two HDX cassettes per bracket

UNIVERSAL PATCH CORD CABLE MANAGERS

- ORU cable managers transition patch cords from horizontal to vertical pathway
- 1RU and 2RU cable managers provide protection and routing of patch cords for flat panels

SPOTLIGHT

Patch Cord Management Tray

Patch Cord Management Trays help route and organize cables. The trays feature identification labels and front saddles that pivot for easier routing. Because they mount directly to the front of the enclosures, they do not require additional rack space. Available in 1RU and 2RU sizes, the trays can be used with any Leviton 1RU flush-mount MTP enclosure or e2XHD flat panel, and 2RU trays can be used with 3RU 500i SDX enclosures.

SPOTLIGHT

Cable Clamp Kits

Cable clamp kits minimize excessive pulling, bending, and crushing forces on cable. The Enclosure-Mount Universal Clamp Kit makes it easy to identify cables and decreases the need for tie-wraps inside the enclosure. The kit also creates a transition point from jacketed cable to buffered fiber or subunits. The Rack-Mount Universal Clamp Kit is ideal for vertical strain relief and strain relief at the top or bottom of a rack/cabinet. Use it for installations with minimal vertical cable pathways and little space for an enclosure-mount cable clamp kit.

e2XHD Snap-In Cassette Patching Platform

The e2XHD Copper and Fiber Patching Platform is an easy-to-connect, high-density solution for enterprise and data center applications, where fast deployment and simple maintenance are critical. The system includes 1RU high-density panels, copper and fiber snap-in cassettes, and accessories for additional cable protection and management. The e2XHD cassettes quickly snap in and pull out of the panels, making installation, moves, adds, and changes easier than ever. **For copper cassettes, see page A15.**

e2XHD SNAP-IN CASSETTE PATCHING PLATFORM | Introduction

e2XHD HIGH-DENSITY PATCH PANELS

High-density panels allow patching for up to 48 duplex fiber channels in a 1RU panel.

e2XHD MTP-MTP Pass-Through Cassette

e2XHD 24-Fiber Cassette, MTP-LC, Shuttered

e2XHD 12-Fiber QuickPort® LC Shuttered Cassette, OM3 - Aqua

e2XHD FIBER CASSETTES

Fiber MTP® Cassettes provide a simple migration path to 40G or 100G networks. The cassettes are pre-terminated and available in 12 or 24 fibers, OM3, OM4, or OS2 single-mode.

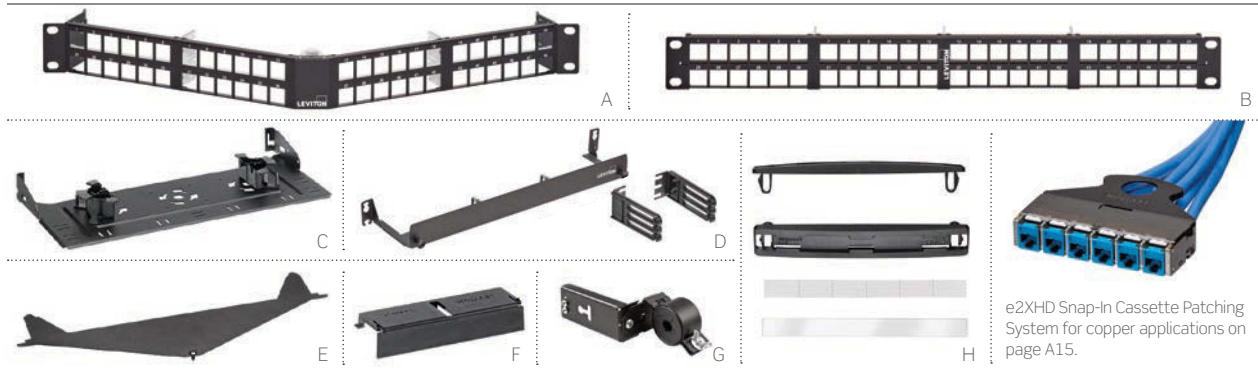

The e2XHD Fiber Cassette features an MTP adapter that swivels to three positions for easier cable routing. Used in conjunction with the patching system's rear cable manager and cable management rings, the adapter delivers an ideal solution for eliminating cable tension and ensuring proper bend radius.

e2XHD SNAP-IN CASSETTE PATCHING PLATFORM | Rack-Mount Panels, Cable Managers, Covers & Tools

e2XHD Snap-In Cassette Patching System for copper applications on page A15.

HIGH-DENSITY PANELS

- Allows for fiber and copper in the same panel
- 1RU panels hold up to 8 single-height fiber cassettes (48-fiber channels)
- Alignment tabs on panels ensure upright insertion of cassettes
- Mount on standard 19-inch racks or cabinets

ANGLED PANEL COVER

- Uses no additional rack space
- Minimizes dust and debris behind panels
- Attaches directly to e2XHD Angled Panel
- Can be retrofitted after panel is installed
- Can be used for top and bottom of panels

REAR CABLE MANAGERS

- Support both fiber and copper cables
- Cable management rings included to help manage and route incoming fiber cables
- Multiple tie down points for VELCRO® Brand ties
- Optional Clamp Kits available to provide cable strain relief for incoming cables
- Flat Panel Manager mounts to rack or cabinet; screws included
- Angled Panel Manager attaches directly to panels

UNIVERSAL PATCH CORD CABLE MANAGERS

- 0RU cable managers transition patch cords from horizontal to vertical pathway
- 1RU and 2RU cable managers provide protection and routing of patch cords for flat panels

e2XHD SNAP-IN CASSETTE PATCHING PLATFORM | Cassettes

FIBER CASSETTES

- Easy to migrate from 10 to 25, 40 and 100 Gb/s when used with Leviton cable assemblies
- Used exclusively with e2XHD panels
- Available in MTP-MTP or MTP-LC
- Available in Base 8, Base 12, Base 24 in OM3, OM4, OS2
- MTP® adapter swivel allows for easy cable routing and proper bend radius
- QuickPort® MTP-LC Cassette uses QuickPort modular fiber adapters; can be removed with QuickPort Connector Removal Tool

- Blank cassettes reserve capacity for future cassettes, easily snap into rear of panel to block unused cassette openings
- Conversion cassettes available (40G to 10G, 100G to 10G, 120G to 10G)
- LC internal shutters minimize dust and provide eye protection
- Universal polarity design, works in conjunction with Method B trunks

Cassettes **B33**

HI-DEX™ System

The HI-DEX patching system offers the perfect balance between density, administration, and realistic usability. Compact cassettes allow for up to 144 fibers in LC or 864 fibers in MTP® in a 1RU space. The panel's modular and scalable design allows isolated access to split trays, ensuring a simple and intuitive yet cost-effective upgrade path.

HI-DEX PANEL SETS

- 1RU 19-inch panel accommodates up to six HI-DEX cassettes or adapter plates
- High-fiber density of up to 144 LC fibers per RU
- Cassettes and adapter plates slide out individually, allowing unrestricted access to every port
- Cassettes and adapter plates can load from front or rear
- Labeling space for port, cassette, and panel identification
- Matching 1RU cable manager provides routing protection across the front of the rack
- Innovative finger management provides bend radius control, preventing disruption to fiber when sliding runners are moved

HI-DEX™ SYSTEM | Cassettes & Adapter Plates

HI-DEX CASSETTES & ADAPTER PLATES

- Plug-and-play cassettes and adapter plates allow flexibility in fiber type and patch presentation
- Ultra-high-performance connectors achieve a low-loss optical budget
- Cassettes provide 24-fiber MTP®-LC patching for 144-fibers in 1RU
- Shuttered LC adapters on closed cassettes have integrated dust and laser protection
- Adapter plates offer 24-fiber LC or 288-fiber MTP in a single cassette
- Cassettes can be configured with opposed or aligned MTP adapters, or UPC or APC LC adapters

CASSETTES (OM3, OM4, and single-mode options use bend insensitive fiber as standard)

SPLICING CASSETTES

- High-density 24-fiber Splice Cassette allows up to 144 fibers to be spliced and managed in 1 rack unit
- 12 ultra-high-performance LC duplex adapters per cassette achieve a low-loss optical budget
- Shuttered adapters with integrated dust and laser protection as standard
- Accommodates 1-meter 250 µm fiber pigtailed and up to 1-meter 900 µm incoming fiber
- Space for 4 incoming trunk cables up to 9 mm in diameter accommodates Leviton PDC and Unitube cable and individual Blolite™ Air Blown Fiber ducts
- Optimized fiber pathway for improved management and containment of fiber
- Printed port identification, colored fiber pairs, and a transparent lid assist with fiber identification and splice management

SPOTLIGHT

Data Center Factory Gives Customers More Options

In late 2017, Leviton opened a premier data center factory at its European headquarters in Glenrothes, Scotland. This new capability provides data center managers throughout Europe, the Middle East, and Africa with custom-configurable make-to-order network infrastructure products. These include EuroClass rated pre-terminated fiber optic and copper cable assemblies and cassettes, with an order turnaround time on par with stock cable assemblies.

Customers can order pre-terminated assemblies to match the exact length, type, breakout lengths, and fiber count they need. The facility produces HDX and e2XHD cassettes as well as fiber array cords, fiber and copper trunks, and CP copper patch cords.

You can learn more at Leviton.com/ns/emea/mto.

PRE-TERMINATED TRUNK CABLES

- Up to 70% faster install than field-terminated trunks
- Discrete connectors are heat cured and use ceramic ferrules and sleeves for optimal performance
- Optional pulling eye protects connectors and eases installation
- Available in LC, SC, and MTP®
- MTP polarity options are TIA methods A, B, or C
- 100% factory tested, with test results included for each assembly
- All assemblies labeled with serial number and length for traceability and easy reorder

SPOTLIGHT

Migration Path to 40G, 100G, 200G, and 400G

Leviton pre-terminated MTP solutions offer an ideal migration path from 10 or 25 to 40 and 100 Gb/s channels. The Opt-X Unity — Ultra Low Loss system features MTP trunks, harnesses, array cords, adapter plates, and cassettes to help future-proof your networks. The Opt-X Unity — Ultra Low Loss system is fully compatible with UHDX, HDX, SDX, and e2XHD (shown) footprints.

10G or 25G

Leviton components for a 10 or 25 Gb/s channel include MTP-LC SDX, e2XHD, or HDX cassettes, and LC duplex patch cords.

40G

Migration from 10 or 25 to 40 and 100 Gb/s system replaces LC with MTP components, such as 2x12-fiber to 3x8-fiber MTP cassettes and 8-fiber MTP array cords.

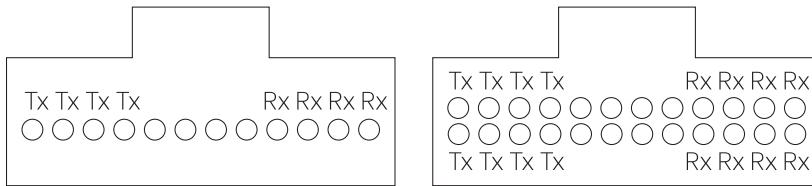

100G

Moving from 40 to 100 Gb/s replaces MTP cassettes with MTP adapter plates and uses 24-fiber MTP array cords.

SPOTLIGHT

Pulling Eye

The pulling eye protects fiber connectors on 12- through 144-fiber trunk cables. It completely covers the breakout length, transferring any pulling force from the assembly to the pulling eye sleeve. Customers can specify which end to have the pulling eye installed.

PRE-TERMINATED CABLE ASSEMBLIES | Harnesses

HARNESSES

- Pre-terminated MTP-to-discrete connectors (LC, SC) in all fiber types
- Custom short-length cable reduces congestion in cabinet or rack patching applications
- Custom staggering available
- Use as a direct connect into switches and servers
- 100% factory tested, with test results included for each assembly
- All assemblies labeled with serial number and length for traceability and easy re-order
- Small diameter cable for dense connectivity
- Available with optional reversing polarity LC Uniboot

SPOTLIGHT

Conversion Harnesses

Conversion Harnesses connect to electronics with LC-style ports. Ideal for channels connecting QSFP+ and SFP+ transceivers, the harnesses can aggregate 10G ports to a 40G or 100G port. Available in 50 µm OM3 and OM4 multimode fiber, conversion harnesses feature a small diameter cable for dense connectivity and bend-insensitive fiber to lower the risk of pinched cables. Conversion cassettes are available in an HDX and an e2XHD footprint.

SPOTLIGHT

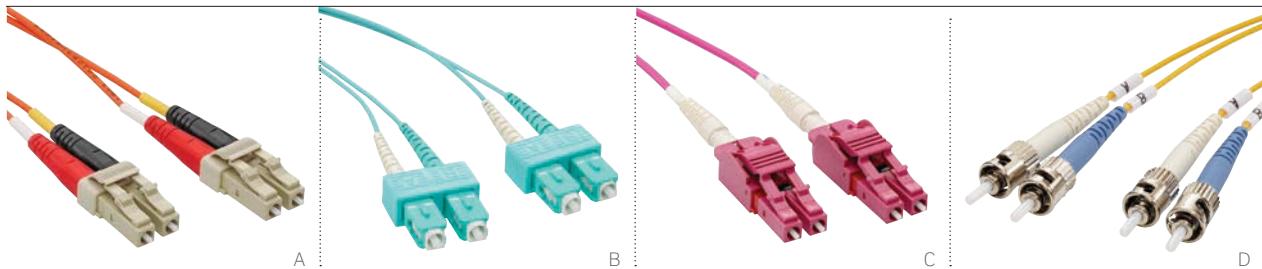

Helping DE-CIX Connect the World

Founded in 1995, DE-CIX is one of the world's premier peering platforms. Broadband providers, content delivery networks, and web hosts use DE-CIX to improve their IP performance and lower their IP Transit costs. The company's Internet Exchange in Frankfurt manages more than 5.8 Terabits per second peak traffic.

When the company upgraded to a 100 Gb/s infrastructure platform, they looked to us. We provided customized OM4 fiber harnesses and trunk cabling, as well as Cat 6A copper trunk cabling for 10 Gb/s. We worked closely with the DE-CIX network team, offering technical and design support. DE-CIX continues to work with Leviton as its infrastructure changes and grows.

Optical Cables

Leviton offers optical cable for a wide range of applications. This includes a full range of LSHF/LSZH tight-buffered and loose-tube cables.

CABLE SELECTION

When selecting the correct cable for any installation, the first question will be fiber type. This is dependent upon the transmission distance and the protocol being adopted. With the choice of fiber type complete, there will be several key cable construction questions.

FIBER COUNT

How many fibers are required? This should take into account future demand and allow an element of redundancy. The cost of installation and associated down time will generally outweigh the cost of additional fiber on day one.

A high-fiber-count cable carrying the majority of a company's data generates a larger risk than several lower-fiber-count cables, should any cable damage occur. Diversity in routing should also be considered in answering this question.

SHEATH OPTIONS

Universal LSHF/LSZH cables are designed for use both internally and externally. They have a halogen-free flame-retardant low-smoke (HFFR-LS) compound sheath that reduces the emission of toxic fumes and the spread of fire.

These cables are also required to be tested, certified, and marked in accordance with the Construction Products Regulation (CPR) in Europe. CPR for data cabling includes EuroClass levels Eca, Dca, Cca and B2ca, creating a hierarchical system for defining fire safety performance requirements, shown in the table below.

| EUROCLASS LEVEL | DESCRIPTION | EXAMPLE ENVIRONMENTS |
|-----------------|--|---|
| B2ca | Very High Fire Protection Self Extinguishing | Hospitals, airports, and fire exists in public buildings (high-density of people or people with limited mobility) |
| Cca | High Fire Protection Self Extinguishing | Public buildings, hotels, schools, or office buildings (medium-density of people) |
| Dca | Moderate Fire Protection Limited Emissions | Used as a minimum cable requirement for general installations in some regions |
| Eca | Basic Fire Protection | Used as a minimum cable requirement for general installations in some regions |

Outdoor Cables are designed only for external use. They have a low-density polyethylene sheath that makes the cable lighter than the equivalent LSHF/LSZH version. This makes outdoor cables more suited for the longer pulled runs into which they are generally installed. Outdoor cables may enter buildings, but they typically must not pass more than three meters past the external fire barrier of the building, depending on local regulations.

CABLE OPTIONS

Premise Distribution Cables (PDC) are based on a 900 µm tight-buffered element and are generally installed in the backbone of a building network and direct terminated at a consolidation point.

Loose-Tube Cables are constructed with gel-filled or dry, central or stranded elements and provide higher fiber-count, compact alternatives to tight-buffered cables.

Leviton loose-tube cables are available in four standard variants:

1. Duct Grade
2. Glass Yarn Armoured
3. Direct Burial Grade - Single Sheath
4. Direct Burial Grade - Twin Sheath

All four variants are available as either Unitube or multi-loose-tube cable. Unitube products are available with up to 24 fibers and multi-loose-tube products are available with up to 216 fibers as standard, although higher fiber-counts are available on request.

OPTICAL CABLES | Premise Distribution Cables

A

TIGHT-BUFFERED PREMISE DISTRIBUTION CABLES

- Ideal for LAN backbone and premises wiring
- Tight-buffered 900 µm construction
- Offered in OM1, OM3, OM4, and single-mode
- Available in fiber counts of 2, 4, 6, 8, 12, 16, and 24
- Cable color is black

SPOTLIGHT

Premise Distribution Cable

Leviton's premise distribution cable is available in multiple CPR EuroClass levels, including B2ca — the highest level of fire protection. This level covers all requirements, from general installations to very high risk areas and is also UL OFNR rated.

The dry core design of Leviton premise distribution cables enable seamless transitions between horizontal and vertical cable routes. Its flexible construction also creates more manageable cable routing in dense applications. And, the cable uses individual gel-free buffered fibers that allow for cleaner and easier field terminations and splicing.

LOOSE-TUBE CABLES

Loose-tube cables are available in unitube or multi-loose-tube constructions. Multi-loose-tube cables are available in variations up to 216 fibers. The three standard constructions are a general duct-grade cable, a glass yarn armoured cable and a corrugated-steel-tape armoured direct-burial cable. There are two sheath options: Low-Smoke Halogen-Free (LSHF/LSZH) for universal or internal applications, and Polyethylene for external applications.

Loose-tube cables are designed for use in building or campus backbone applications and can be installed by blowing, winching, or pulling into existing sub ducts or cable conduits. External steel-tape armoured products can also be direct buried.

MINI UNITUBE CABLE

- For short-run backbone applications
- Lightweight, flexible, and compact
- Uses white sheath to be discrete in the home
- 2- and 4-fiber options constructed around a 1.9 mm gel-filled loose tube, layer of glass yarns, and a Low-Smoke Halogen-Free (LSHF/LSZH) outer sheath

GLASS YARN ARMOURED RODENT-RESISTANT MULTI-LOOSE-TUBE CABLE 156-216 FIBERS

- For applications where rodent protection and high-fiber counts are required
- Glass-roving armour deters rodents from chewing through cables
- Up to 18 x 2.5 mm diameter loose tubes containing up to 12 fibers and solid fillers
- Stranded around a sheathed-rigid glass non-metallic central-strength member
- Layer of water-blocking tape provides interstitial water blocking
- Cable color is black

Connectivity & Tools **B66**

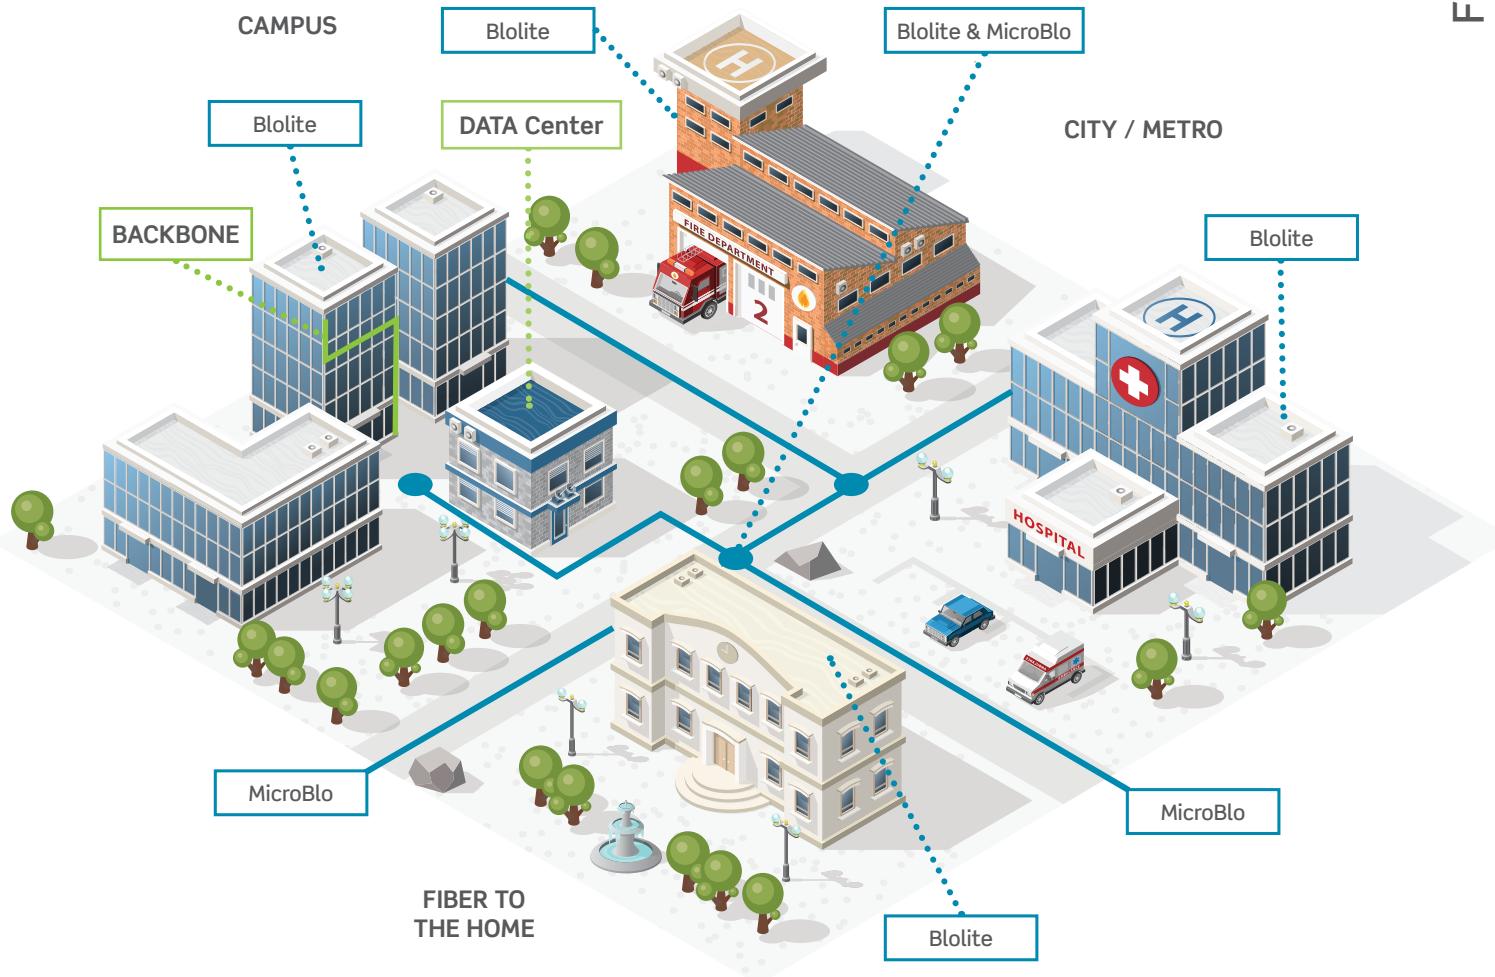

Air-Blown Fiber Systems

In the past, industry practice had been to install 'dark fiber' to plan for future bandwidth demands. However, this strategy carries risks, as unterminated and untested fibers may not be fit for purpose when the time comes to use them. Fortunately, there is a simple and cost-effective solution in Air Blown Fiber Systems, which eliminate risk by preinstalling a ducting route and then blowing in (and paying for) the fiber element only when its required. Leviton offers solutions for both internal and external applications with the market leading Blolite™ and MicroBlo™ systems.

A COMPLETE SOLUTION FOR EVERY INSTALLATION

Blolite individual-blown fiber is a point-to-point solution suited to applications such as fiber to the desks/home, backbone links, campus, and data center applications. The specially coated single fibers are blown through the MicroDucts using 'dry' air and can be installed in very complex routes often found within buildings.

MicroBlo Micro Cables are ideally suited for outside plant, campus, metro, and access applications. The Micro Cables are of a multiple loose-tube construction and are introduced into MicroDucts using the air as a lubricant to facilitate the blowing of the cables.

In the campus network, combining MicroBlo Micro Cables with Blolite fiber provides a complete solution that will realise all the benefits of an air-blown fiber system through its lifetime.

AIR-BLOWN FIBER SYSTEMS | Blolite™ Systems

BOLITE SINGLE-BLOWN FIBER ELEMENTS

- Complete range of single-mode and multimode fibers with blowable coating
- Strippable with standard tools and compatible with standard connector types
- Available in 12 colors
- Supplied on plastic reels in 2 or 4 kilometer lengths
- Installs in 3, 5, and 8 millimeter Blolite MicroDuct
- Installed by trained and licensed Blolite installer using IM2000 blow head

SPOTLIGHT

Installation Equipment

Installing Blolite fibers into a Blolite MicroDuct route requires the use of specially designed equipment. The IM2000 Blocenter includes a purpose made blow head, tripod, and pay-off system, all supplied within sturdy carry cases. In addition to the IM2000, the installer will require a portable conditioned air supply delivering a minimum of 155slpm @ 10 bar and a 240v power source. The blow head uses a belt drive system to forward up to 12 Blolite fibers into a MicroDuct, at which point the air is introduced and the installation of the fiber is enabled.

A

BOLITE DIRECT INSTALL MICRODUTS

- Facilitates installation of Blolite single-blown fibers for direct installation in external applications
- Up to 19 blue individual ducts, numbered for identification
- Standard low-friction halogen-free flame-retardant low-smoke duct and Polyethylene outer sheath

FEATURED PRODUCTS

FastCAM
Connectors **B72**

Connectors & Housings

Leviton has everything you need to properly terminate your fiber network. FastCAM™ and field polish connectors are available in LC, SC, and ST styles. To extend fiber to the workstation, we also offer QuickPort® fiber adapters for wallplates and Multimedia Outlet System (MOS) housings. Go to the Wallplates & Housings section to see our wallplate selection.

FASTCAM CONNECTORS

- Pre-polished, field-installable connectors
- Use precision zirconia ferrules
- Require no polishing or epoxy curing; provide immediate termination
- Precision mechanical termination uses molded v-groove technology to retain and align the fiber
- Terminated on 250 µm or 900 µm buffered fiber and/or 2 or 3 mm jacketed fiber
- Higher yields with Visual Fault Locator (VFL)-compatible LC, SC, and ST connectors
- Available in OM1, OM3, OM4, OS2 UPC, and OS2 APC (SC only)

FASTCAM CONNECTORS - 1 PER BAG

* Includes an internal 8° cleave for >60 dB return loss performance. Requires 8° cleave tool (see page B75, item L).

See pages B73-B76 for FastCAM tools and consumables.

SPOTLIGHT

Visual Fault Locator (VFL)

The Leviton Visual Fault Locator (VFL) uses a bright red laser to locate faults in optical fiber, such as bends, breaks, and defective connectors. The VFL comes with a 2.5 mm interface for ST and SC type connectors and a 1.25 mm adapter for LC type connectors, and soft carrying case. Use with LC, SC, and ST FastCAM connectors. The VFL is an ideal tool for first time users of FastCAM pre-polish connectors as it provides real-time visual feedback on success of fiber to fiber coupling just prior to activating the clamps.

See page B79.

CONNECTORS & HOUSINGS | Connectors > Field Polish

FIELD POLISH CONNECTORS

- Anaerobic adhesive/epoxy field-polish connectors
- Hand polishing required
- Most robust connection, ideal for inside and outside plant applications
- Available in LC, SC, and ST connector styles
- LC simplex or duplex, for 900 µm, 2.0 mm to 3.0 mm cable, single-mode and multimode options
- SC simplex or duplex, for 900 µm, 2.0 mm to 3.0 mm cable, single-mode and multimode options
- ST for 900 µm, 2.0 mm to 3.0 mm cable, single-mode and multimode options

| ST Connector, SM, 900µm and 2.4-3 mm black and yellow boots | FOCSTEPSTM001 |
| ST Connector, MM, 900µm and 2.4-3 mm black boots | FOCSTEPMM001 |

* Includes an internal 8° cleave for >60 dB return loss performance. Requires 8° cleave tool (see page B79, item L).

See pages B77-B80 for FastCAM tools and consumables.

CONNECTORS & HOUSINGS | Fiber Optic Fan-Out Kits & QuickPort® Adapters

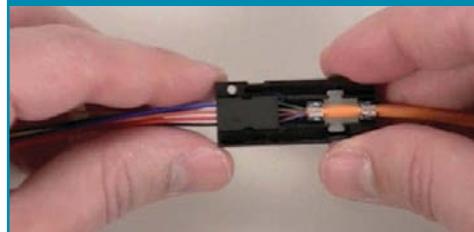

FIBER OPTIC FAN-OUT KITS

- Protect bare fiber and prepare loose-tube cable for direct termination to industry-standard connectors
- Separate 250 µm fibers and route into color-coded 900 µm buffer tubes with no proprietary tools
- Available in 6- or 12-strand kits and 24- or 36-inch lengths
- Works with cabling from any manufacturer (will accommodate maximum buffer-tube diameter up to 3.5 mm)

QUICKPORT FIBER ADAPTERS

- Snap into all QuickPort openings and Multimedia Outlet System (MOS) housings, see page C23.
- Tool-free plug-n-play installation

Leviton offers multiple reliable methods for field fiber connections. FastCAM pre-polished connectors provide precision mechanical fiber termination. No proprietary tools, no epoxy and no time-consuming hand polishing required, so installation takes just minutes. FibrePlus epoxy connectors are a cost-effective fiber optic connector option with quick, adhesive termination.

FEATURED PRODUCTS

Visual Fault Locator (VFL) **B79**

Cleavers **B79**

Tools & Consumables

Different termination technologies require unique tools. Leviton has everything you need to terminate anaerobic adhesive field polish and FastCAM™ pre-polished connectors. We also offer cleaning tools for LC, SC, and MTP® connectors. Choose from complete kits, or mix and match individual tools and a wide variety of consumables.

VISUAL FAULT LOCATOR (VFL)

Quickly locate optical fiber damage with the Leviton Visual Fault Locator (VFL). The pocket-sized tool uses a bright red laser to locate faults, including tight bends, breaks, and defective connectors. The VFL comes with a 2.5 mm interface for ST and SC type connectors and a 1.25 mm adapter for LC type connectors, and soft carrying case. Use with FastCAM™ LC and SC connectors for enhanced terminations. The VFL is an ideal tool for first time users of FastCAM pre-polish connectors as it provides real-time visual feedback on success of fiber to fiber coupling just prior to activating the clamps. **See page B79.**

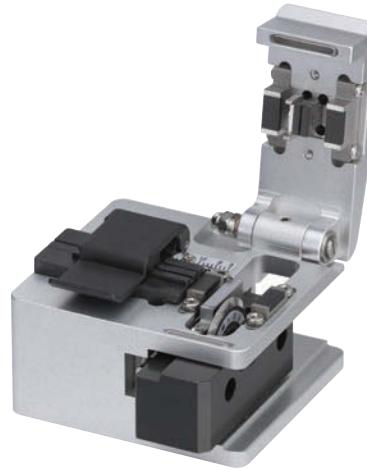

LEVITON 200X INSPECTION SCOPES

Reduce the chances of over-polishing with Leviton's high-powered inspection scopes. View single-mode and multimode end-face polishes safely with our oblique viewing technology; full laser eye protection is provided through wavelengths of 850-1550 nanometers (nm). Rugged metal and rubber construction stands up to worksite abuse while offering an ergonomic grip. **See page B79.**

FASTCAM TERMINATION TOOLS

FastCAM terminations and fusion splicing both require precision cleaving. Get the accuracy you need with the cleaver. A cleave angle of 90 degree +/- 0.5 degree is guaranteed; the 16-position blade remains sharp through approximately 48,000 cleaves. For a self-contained workspace, mount the cleaver to the optional work tray and use the gooseneck LED for task lighting. The Leviton APC Angled Cleaver is required for APC single-mode FastCAM connectors. **See page B79.**

ONLINE TRAINING VIDEOS

Increase your expertise with Leviton's online fiber training. Step-by-step instructions on terminating FastCAM 250 µm and 900 µm fiber or using our fan-out kit are available with just a click of the mouse. All of Leviton's training animations feature clear, easy-to-understand graphics paired with on-screen written instructions for maximum effectiveness. Visit Leviton.com/ns/videos.

SPOTLIGHT

USEK

Lebanon's Holy Spirit University of Kaslik (USEK) is one of the largest universities in Lebanon, educating more than 8,000 students every year through 15 academic units and four campuses.

USEK recently finalized the completion of a laser-optimized multimode fiber (OM4) 40 Gb/s backbone network at its main campus. They conducted many tests to select a main vendor for their campus-wide infrastructure, and in the end they chose Leviton. They used OM4 cable, Opt-X® 500i panels, LC connectors, LC cords, and cable managers. They connected all campus buildings within three months.

TOOLS & CONSUMABLES | Consumable Products & Kits

UNIVERSAL CONSUMABLES KIT

All the basic supplies needed to clean and polish fiber optic connectors. Set includes:

- 50 lint-free dry wipes
- 50 alcohol pads
- 30 sheets 12 µm lapping film
- 30 sheets 3 µm lapping film
- 30 sheets 0.3 µm lapping film
- Piano wire

ADHESIVE/ACCELERATOR KIT

Supply sufficient for approximately 200 terminations.
Set includes:

- Loctite 680 adhesive
- Loctite 7649 accelerator with syringe
- Two needles

ANAEROBIC ADHESIVE FIELD POLISH CONSUMABLES KIT

Everything from the Universal Kit, plus specialized supplies for anaerobic adhesive field polish terminations. Supply sufficient for approximately 200 terminations. Additional included items:

- 25 syringes
- 25 needles
- Adhesive and accelerator

FAN-OUT CONSUMABLES KIT

Kit terminates a minimum of 10 fiber optic Fan-Out Kits.
Set includes:

- 20 lint-free dry wipes
- 10 alcohol pads
- 10 D'Gel™ packets
- Sealant
- Talc powder

HOUSINGS & WALLPLATES | UK-Style Wallplates, Back Boxes & Modules

UK-STYLE WALLPLATES, BACK BOXES & MODULES

- Outlet solutions for wall and trunking applications
- Used with select Leviton Snap-In Jacks and QuickPort® jacks
- UK-style wallplates come with M3.5 mounting screws and are available in both modular or shuttered versions
- Back boxes allow surface-mount applications

GIGAPLUS CAT 5E SLIMLINE SHUTTERED MODULES

- Suitable where internal back box space is limited
- Color-code wiring label included

BRITISH STYLE WALLPATE INSERTS

- Compatible with QuickPort connectors
- Includes ID window for port designation
- Spring-loaded shutters protect connector while not in use

50 X 50 MM WALLPLATE FIBER MODULES

- For installation poles, wall trunking and back boxes
- Available in LC, SC, single-mode, and multimode

SPOTLIGHT

Erasmus Medical Centre Gets an Update

Erasmus MC is the largest university medical center and the second largest hospital in the Netherlands. To meet its goal of becoming one of the top 20 medical institutes in the world, Erasmus MC required a high-performance network infrastructure, and they looked to Leviton for support. The Leviton solutions installed include Cat 6A shielded cable, jacks, and patch cords, as well as single-mode air-blown fiber and pre-terminated OM4 fiber trunk cables.

The new infrastructure allows Erasmus MC to integrate state-of-the art medical equipment and health care services while accommodating future upgrades, including new digital building applications.

GERMAN-STYLE OUTLETS

- Shielded Modules can be flush or wall mounted using the 80 x 80 mm Wallplate and Back Box
- 50 x 50 mm Snap-in-Jack Modules have angled design to reduce bending stresses on cable

ITALIAN-STYLE WALLPLATES

- 2- and 3-port Italian-style wallplates offered in horizontal alignment
- Jacks sold separately

45 X 45 MM WALLPLATE FIBER MODULES

- For installation poles, wall trunking and back boxes
- Offered in Euro-style (45 x 45 mm) and UK-style (50 x 50 mm, see page C4)
- Available in LC, SC, single-mode, and multimode

Compatibility References:

See pages C25-C26 for housings, wallplates, and jack compatibility.

QuickPort® Surface-Mount & DIN Rail-Mount Boxes

QUICKPORT BOXES, MODULES & ACCESSORIES

- Surface-mount boxes and back boxes have breakouts to match common raceway systems and cable entry
- One-, two-, and four-port surface mounted boxes have been tested to UL 2043 and are suitable for use in air handling (plenum) spaces per NEC 300-22(b)(c)
- Mount with screws or adhesive mounting tape (both provided), or with magnets or modular furniture brackets (sold separately, page C17)
- 1- and 2-port 41089 and 4S089 products work with Leviton shielded or UTP Cat 6A jacks and cable to allow proper bend-radius control (see compatibility matrix (page C26)

QUICKPORT DIN RAIL-MOUNT BOXES

- Provide an ideal network patching location for industrial automation and control panels
- Compatible with standard and low-profile 35 mm symmetrical DIN rails and 32 mm asymmetrical DIN rails
- Accept one QuickPort Decora™ Insert with one, two, three, four, or six ports
- Box depth suitable for Cat 5e or Cat 6 applications

DIN RAIL SNAP-IN JACK MODULE

- Ideal for residential, industrial, and enterprise cabling systems
- Easily snaps onto a DIN rail
- Multiple modules can be aligned horizontally in a row, and angled jacks facilitate improved cord routing

HOUSINGS & WALLPLATES |

QuickPort® In-Ceiling Brackets, Floorbox Brackets and Modules

IN-CEILING BRACKET

- Creates a testable permanent link for cabling that terminates above a drop ceiling without a wallplate
- Brackets available individually or with pre-installed multi-function clip that attaches to standard drop wire or rod
- VELCRO® Brand tie-down points accommodate cabling slack loops (sold separately, see pages D8-D9)
- Plenum-rated QuickPort one-, two-, and four-port surface-mount boxes (sold separately) attach to brackets and are ideal for use in drop ceiling areas

IN-WALL BRACKET

- Helps create a testable permanent link for cabling that terminates in the wall without using a traditional wallplate
- Provides a stable mounting surface for jacks that is recessed behind the wall surface
- Ideal for Ethernet-enabled devices — such as WAPs, cameras, or clocks — that mount to electrical or low-voltage boxes or directly to the wall
- Available as a set of five brackets, or individually kitted with a single-gang wallplate mounting bracket

FLOORBOX BRACKETS & MODULES

- Floorbox modules and blanks clip into a 1.0-2.0 millimeter thick plate with a standard 22 x 37 millimeter floorbox cut-out
- Modules available in angled and unshielded

QuickPort In-Ceiling & In-Wall Brackets

HOUSINGS & WALLPLATES

HOUSINGS & WALLPLATES | QuickPort Introduction

QUICKPORT® WALLPLATES

The QuickPort System allows you to create the perfect mix of voice, data, video, and audio connections. Category-rated copper, fiber, and AV QuickPort jacks are compatible with any QuickPort wallplate or insert.

QUICKPLATE™ TEMPO WALLPLATES WITH ID WINDOWS

QuickPlate Tempo wallplates allow for fast, one-step installations. They feature patented rear wings that tighten the wallplate to wallboard, eliminating the need for a box or mounting brackets.

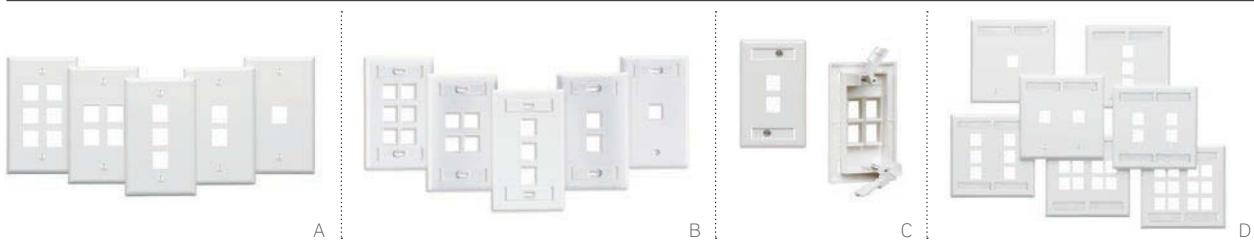

2-Port Wallplate

Leviton.com/ns/videos
"How to Install a QuickPlate Tempo Wallplate"

HOUSINGS & WALLPLATES | QuickPort® & QuickPlate™ Wallplates > Plastic

QUICKPORT STANDARD PLASTIC WALLPLATES

- Compatible with all QuickPort Jacks and Couplers
- Manufactured from ABS plastic for superior resistance to impact, chemicals, and solvents, as compared to other plastics
- Fits NEMA openings and accommodates low-voltage box eliminators for a flush mount
- cULus Listed, fire-retardant material rated UL 94V-0
- ID windows aid in port identification
- Country of origin: USA

SINGLE-GANG QUICKPLATE TEMPO WALLPLATES WITH ID WINDOWS

- Patented rear wings tighten wallplate to wallboard, eliminating the need for a box or mounting brackets and creating a fast, one-piece installation
- Wings accommodate wallboard thickness of $\frac{5}{8}$ inch or less
- ID windows act as marking template for cutting hole in wallboard
- cULus Listed, fire-retardant plastic rated UL 94V-0
- Country of origin: USA

Compatibility References: See pages C25-C26 for jack, wallplate & housing compatibility.

QUICKPORT ANGLED, MIDWAY, LARGE JACK & HORIZONTAL WALLPLATES

- Angled and large jack wallplates are made from high-quality ABS plastic, which provides superior resistance to impacts, chemicals, and solvents as compared to other plastics
- Angled wallplates facilitate optimal cable management and ensure proper bend radius in front and back of jack
- Midway wallplates are durable nylon with a smooth finish and help hide irregular drywall cuts or flaws around outlets
- Large jack wallplates feature increased vertical spacing between ports
- cULus Listed, fire-retardant material rated UL 94V-0
- Horizontal wallplate options include single-gang 2-port and a 3-port with an ID window

Compatibility References: See pages C25-C26 for jack, wallplate & housing compatibility.

SPOTLIGHT

Multimedia Outlet System

The **Leviton Multimedia Outlet System (MOS)** is a front-loading solution providing a clean and flexible way to integrate voice, data, audio and video into one wallplate or surface-mount box.

Ideal for applications like healthcare, education, enterprise and government buildings, the front-loading capability makes the system easy to install, maintain and update. Changes are made without removing the wallplate from the wall, and all wiring and cabling is done from the front side of the wallplate.

MOS consists of surface-mount boxes and single-, dual-, and triple-gang wallplates that accept a variety of copper, fiber, and AV modules. Install any combination of connectors including QuickPort Jacks and larger AV modules such as 3-port composite/component RCA, HD-15 couplers and fiber modules.

See the full array of MOS options on pages C23-C24.

HOUSINGS & WALLPLATES | Decora™ Telephone & Video Wallplates & Inserts

DECORA TELEPHONE & VIDEO WALLPLATES

- 6P4C models feature lead-frame design for improved reliability and simple installation
- Decora inserts are compatible with Decora wallplates and Decora Plus screwless wallplates
- Decora wallplate assemblies include a Decora insert and matching Decora wallplate
- Decora Kits include a one- or two-port QuickPort® Decora insert and snap-in USOC or F-connector QuickPort Couplers
- Inserts, assemblies, and kits are cULus Listed and rated UL 94V-0

Inserts fit Decora Wallplates found on page C15.

SPOTLIGHT

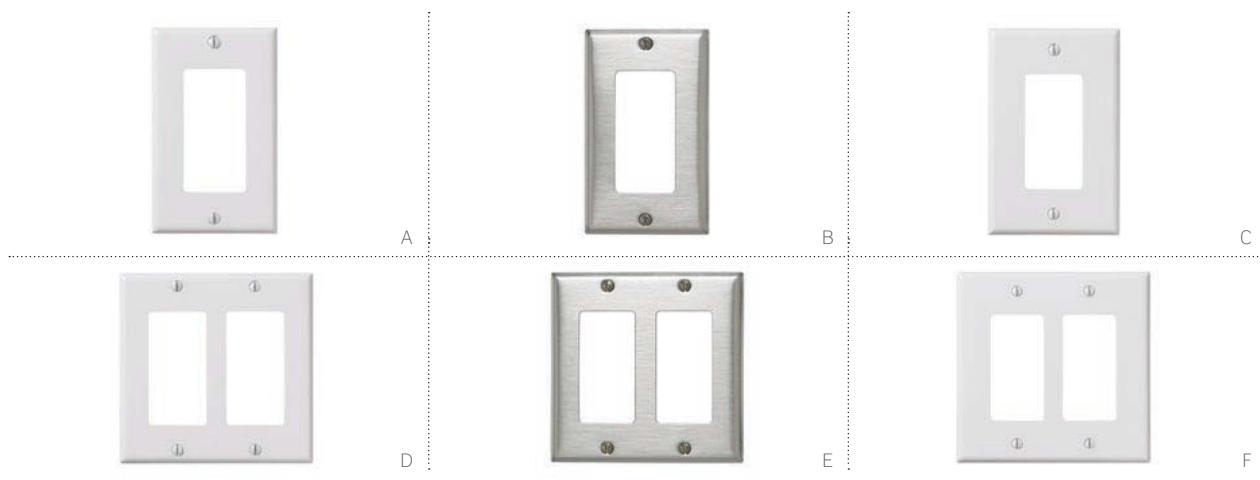

VXC™ Coupler

The Leviton VXC Coupler is a cost-effective solution for installing WAPs, cameras, or other IoT devices. The coupler connects two pieces of Cat 6A cabling, giving integrators the ability to install and test a permanent link or MPTL, while keeping the flexibility to fine-tune the placement of the final device. It creates a durable connection without the need for punchdown or other proprietary tools.

See page A30 for details.

HOUSINGS & WALLPLATES | Decora™ Single-Gang & Dual-Gang Wallplates

DECORA WALLPLATES

- Accepts a variety of inserts for voice, data, and video applications
- Smooth face and rounded edges resist dust accumulation
- Accent any wall covering with wide selection of colors

Numerous additional configurations are available; call +1 (425) 486 2222 or visit Leviton.com for more information.

SPOTLIGHT

Dubai Roads & Transit Authority

Dubai's Roads & Transit Authority (RTA) manages everything from public buses, taxis, boats, and trains to road construction and traffic engineering. When they built a new headquarters, they chose Leviton for their structured cabling solutions. These included:

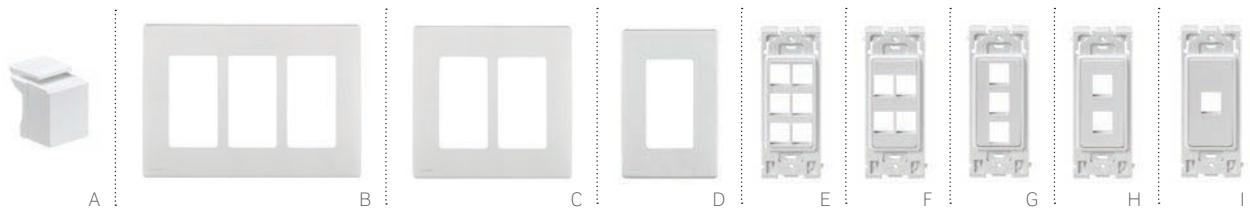

- eXtreme® Jacks and patch cords
- VertiGO™ Zero-U and QuickPort® patch panels
- QuickPort Wallplates
- Opt-X SDX 2000i Rack-Mount Fiber Enclosure System
- MTP and LC pre-terminated trunks, and LC patch cords

Not only did the project go smoothly, it won awards from *Network World Middle East*, and the RTA was awarded Network Cabling Project of the Year.

HOUSINGS & WALLPLATES | Renu™ Wallplates & Inserts

Mix and match for an upscale finish to your project.

Renu Wallplates snap on and off Renu Inserts quickly and easily with no tools, simplifying installation and ongoing maintenance. Choose from wallplates and inserts in White on White, Navajo Sand, Onyx Black, and Stainless Appearance. They are ideal for boardrooms, executive offices, and other applications requiring a high-end finish.

RENU WALLPLATES AND INSERTS

- Screwless wallplates easily snap onto any Renu insert or device
- Inserts accept all QuickPort® Couplers and Jacks
- Slightly larger size covers wall imperfections
- Tongue- and groove-design simplifies alignment in multi-gang installations
- Adapter ring allows use of Decora™ device with Renu wallplates
- Available in four standard colors to coordinate with the commercial-grade QuickPort line (White on White, Navajo Sand, Onyx Black, and Stainless Appearance)
- Additional wallplate colors for switches, dimmers, and outlets available; visit Leviton.com/renu
- cULus Listed
- One-year limited warranty

Compatibility References: See pages C25-C26 for jack, wallplate & housing compatibility.

DURAPORT JACK HOUSING

- Twist-lock mating allows for easy installation and provides a robust seal
- Compatible with all Atlas-X1 and eXtreme® QuickPort® Jacks (sold separately)
- Captive cap with retainer protects and seals unused ports

DURAPORT STAINLESS-STEEL WALLPLATE

- Patented overmolded gasket on wallplates provides a watertight fit
- Safeguards network in severe conditions and resists moisture, dust, corrosion, acids, oils, and vibration
- Provides a complete seal without o-rings
- Compatible with standard NEMA boxes
- Help position and retain screws during installation

DURAPORT OUTLET KIT

- DuraPort components assembled for added convenience
- Kits include jack housing, jack cap, and stainless-steel wallplate
- Patch cords and QuickPort Jacks are sold separately

DURAPORT PATCH CORDS

- Available in industrial plug to industrial plug, and industrial plug to RJ-45 plug configurations
- Cat 6A shielded and Cat 6 UTP available in 3' to 50' lengths, black
- Compatible with Leviton heavy duty Weatherproof Boxes, available in single-gang (1GM53, 1GM73) and two-gang (2GM53, 2GM55, 2GM73, 2GM75) configurations

PROTECTION AGAINST SOLID OBJECTS

SPOTLIGHT

QuickPort® DIN Rail-Mount Boxes

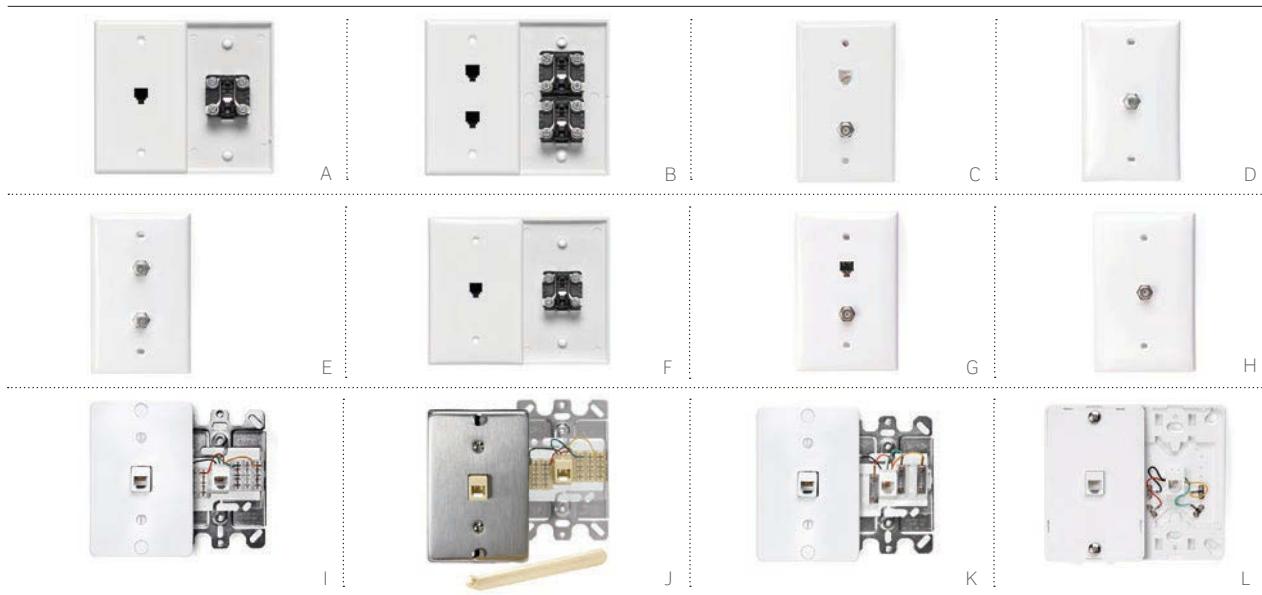

Compact QuickPort DIN Rail-Mount Boxes are ideal for network patching inside industrial automation and control panels. The boxes are available empty or with a Leviton 6-Port QuickPort Decora™ insert installed, and can be opened to install other QuickPort Decora inserts. The back panel of each box can be configured to allow cable access at either the top or bottom, increasing flexibility within tight-control enclosures. The box depth is suitable for Cat 5e and Cat 6 jacks.

[Learn more on page C7.](#)

Compatibility References:

See pages C25-C26 for jack, wallplate & housing compatibility.

HOUSINGS & WALLPLATES | Telephone & Video Wallplates

TELEPHONE & VIDEO WALLPLATES

- Provide quick at-the-wall connections for RJ-11 telephone and F-connection video applications
- High-quality ABS plastic or nylon, which provides superior resistance to impacts, chemicals, and solvents as compared to other plastics
- Midway wallplates hide irregular drywall cuts or flaws around outlets
- cULus Listed, fire-retardant material rated UL 94V-0

TELEPHONE WALL-PHONE JACKS

- Wall-phone jacks available in 4- or 6-conductor models
- Screw terminal or quick-connect termination options
- Quick-connect products include plastic punchdown tool

HOUSINGS & WALLPLATES | Round Telephone Inserts & Surface-Mount Boxes

ROUND TELEPHONE INSERTS & SURFACE-MOUNT BOXES

- Round inserts available with screw terminal or 110-style termination
- See page C18 for wallplates with round openings
- Surface-mount boxes feature 4-, 6-, and 8-conductor screw terminal connections
- Shorting bar option for use with monitored home security systems

QUICKPORT® FLOOR BOX ASSEMBLIES

- Combine voice, data, and AV couplers and jacks in convenient in-floor locations
- Floor box assemblies include brass wallplate and screw cap (floor box not included)
- Inserts and connectors are ivory

CABLE MANAGEMENT | Versi-Duct™ Cable Management System

VERSIDI-CT CABLE MANAGEMENT SYSTEM

The innovative system for copper and fiber installations fits on any standard equipment rack, and accessories enable a wide range of configurations.

VERSIDI-CT 8" CHANNEL CABLE MANAGEMENT

- Ideal for today's large-scale deployments and Cat 6A installations with typical larger-diameter cable
- 80-inch channel ships in two 40-inch pieces for easier handling and installation
- Channels available with standard black cover
- Designer cover (gray) available as an accessory
- Channels include mounting bracket kit and two covers, one slack-loop organizer, and one cable retainer, per 80-inch side (front or front/rear)
- Covers feature integrated dual-hinge for easy accessibility
- Channels can be side- or center-mounted for better space utilization
- Large finger-passthrough space aligns with rack units

VERSIDI-CT 8" CHANNEL VERTICAL CABLE MANAGEMENT & ACCESSORIES

| DESCRIPTION | FRONT ONLY | FRONT & REAR |
|--|----------------|---------------|
| Vertical 80" (2.03 m) length, 8" W x 8" D (20.3 x 20.3 cm) channel, standard black cover, hinged | [A] 8980L-VFO* | [B] 8980L-VFR |
| Vertical 40" (1.02 m) Cover, 8" (20.3 cm) W, black (set of 4) | — | 8940L-SRC |
| Vertical 40" (1.02 m) Designer Cover, 8" (20.3 cm) W, gray (set of 2) | — | 89265-8DC |
| Vertical Center Mounting Bracket, 8" (20.3 cm) W channel (bag of 4) | — | 89265-BKT |
| Vertical Cable Retainer, 8" (20.3 cm) W channel (bag of 6) | — | [C] 89265-WR1 |
| Vertical Slack Loop Organizer, 8" (20.3 cm) W channel (package of 2) | — | [D] 89265-SL1 |

* = Rear retrofit not available.

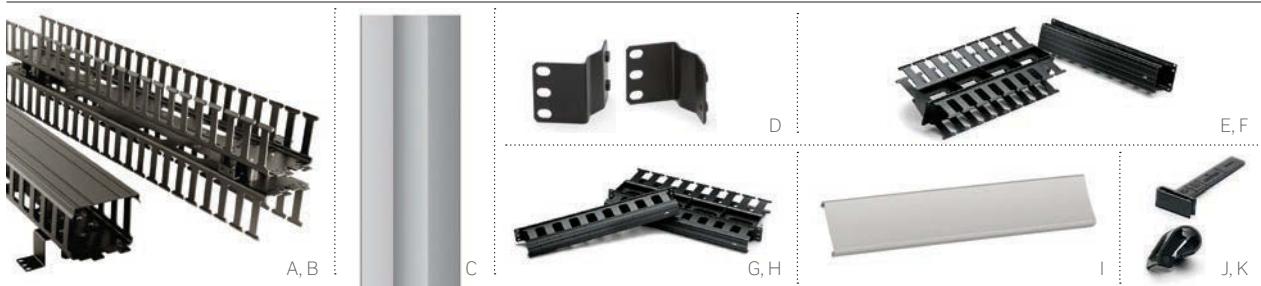

8" VERSIDI-CT CAPACITY CHART

Use the chart below to determine maximum recommended cable capacity for 8" Versi-Duct managers, based on average cable outside diameter. To ensure proper bend radius and space for future additions, do not fill to capacity at initial installation.

| FEATURE | CHANNEL DEPTH (WxD) | USABLE AREA (IN ²) | CAT 6A CAPACITY 0.330" (8 MM) CABLE | CAT 6 CAPACITY 0.230" (6 MM) CABLE | CAT 5E CAPACITY 0.185" (5 MM) CABLE |
|-------------------|------------------------------|--------------------------------|-------------------------------------|------------------------------------|-------------------------------------|
| 8" Channel Size | 7.88" x 6.9" (7.9 x 17.5 cm) | 54.3 (137.9 cm) | 159 | 327 | 505 |
| Finger Spacing | 5.5" x 1" (14 x 2.5 cm) | 5.5 (14 cm) | 24 | 50 | 77 |
| Large Passthrough | 4.8" x 2.6" (4.8 x 12.2 cm) | 11.2 (28.5 cm) | 49 | 101 | 156 |
| Small Passthrough | 2.6" dia. (6.6 cm) | 5.3 (13.5 cm) | 23 | 48 | 74 |

CABLE MANAGEMENT | Versi-Duct™ Vertical & Horizontal Management

VERSI-DUCT 5" CHANNEL CABLE MANAGEMENT

- 80-inch channel ships in two 40-inch pieces for easier handling and installation
- Interlocking tabs maintain flush channel alignment
- Finger spacing aligns with rack units

VERSI-DUCT HORIZONTAL CABLE MANAGEMENT

- Fits all standard 19-inch racks
- Includes bend-radius-compliant clips
- Finger spacing aligns with patch panel port openings to better manage patch cords

Mount the Slack Loop Organizer on the duct fingers to manage excess cables.

VERSI-DUCT 5" CHANNEL VERTICAL CABLE MANAGEMENT & ACCESSORIES

| DESCRIPTION | FRONT ONLY | FRONT & REAR |
|---|----------------|---------------|
| Vertical 80" (2.03 m) length, 5" W x 4" D (12.7 x 10.2 cm) channel, standard snap-on black cover (included) | 4980L-VFO+ | 4980L-VFR |
| Vertical 40" (1.02 m) length, 5" W x 4" D (12.7 x 10.2 cm) channel, standard snap-on black cover (included) | [A] 4940L-VFO+ | [B] 4940L-VFR |
| Vertical 40" (1.02 m) Cover, 5" (12.7 cm) channel, snap-on, black (set of 4) | — | 4940L-SRC |
| Vertical 40" (1.02 m) Designer Cover, 5" (12.7 cm) channel, snap-on, gray (set of 2) | — | [C] 59265-5DC |
| Vertical Center Mounting Bracket, 5" (12.7 cm) channel (set of 2) | — | [D] 49265-BKT |

* = Rear retrofit not available.

* = Bend radius clips included.

5" VERSI-DUCT CAPACITY CHART

Use the chart below to determine maximum recommended cable capacity for 5" Versi-Duct managers, based on average cable outside diameter. To ensure proper bend radius and space for future additions, do not fill to capacity at initial installation.

| FEATURE | CHANNEL DEPTH (WxD) | USABLE AREA (IN ²) | CAT 6A CAPACITY 0.330" (8 MM) CABLE | CAT 6 CAPACITY 0.230" (6 MM) CABLE | CAT 5E CAPACITY 0.185" (5 MM) CABLE |
|-----------------|------------------------------|--------------------------------|-------------------------------------|------------------------------------|-------------------------------------|
| 5" Channel Size | 4.75" x 3.9" (12.1 x 9.9 cm) | 18.5 (47 cm) | 54 | 111 | 172 |
| Finger Spacing | 3" x 1" (7.6 x 2.5 cm) | 3.0 (7.6 cm) | 13 | 27 | 42 |
| Passthrough | 3.5" x 1" (8.9 x 2.5 cm) | 3.5 (8.9 cm) | 15 | 32 | 49 |

Versi-Duct

CABLE MANAGEMENT | Horizontal & Modular Cable Managers

HORIZONTAL CABLE MANAGERS

- Available in 1RU, 2RU, and 4RU sizes
- All mount to standard 19-inch racks and cabinets
- 4RU manager includes a shelf to support patch cords
- Horizontal managers support transition to vertical management

MODULAR CABLE MANAGER

- For use with Snap-in-Jack Patch Panels (see page A18)

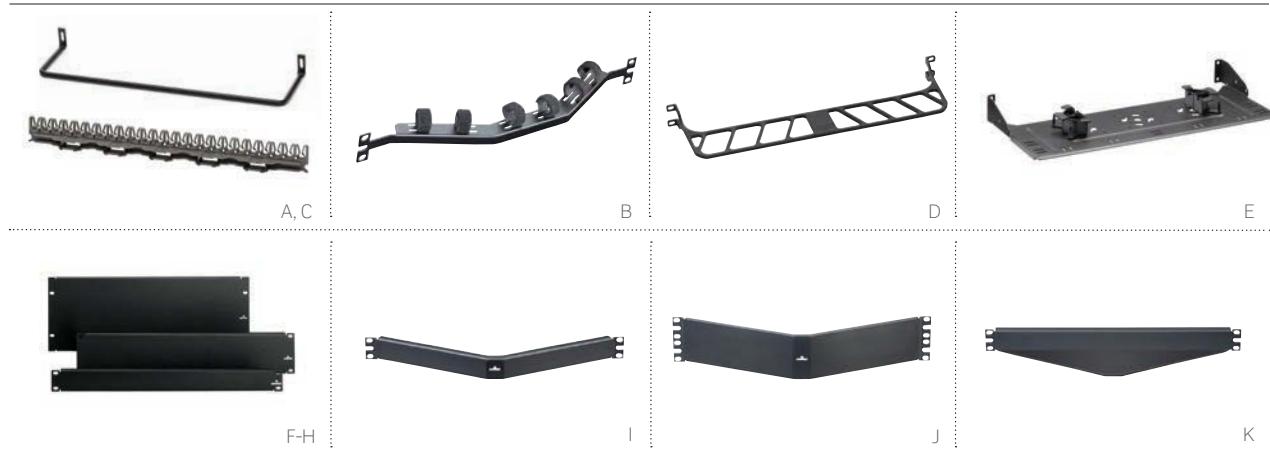

HORIZONTAL CABLE MANAGERS

| DESCRIPTION | FLAT | ANGLED |

CABLE MANAGEMENT | Rear Cable Managers, Blanks & Transitional Covers

REAR CABLE MANAGEMENT BARS

- Standard Flat Cable Management Bar attaches to patch panel
- Cable Management Clip easily snaps onto the Standard Cable Management Bar to secure discrete cables with no ties or wraps
- Angled bars attach to rack
- High-Density Cable Management Bar supports heavy loads of cable and mounts on front or rear of rack
- e2XHD Rear Cable Manager for flat panel attaches to rack, includes rings to help manage and route incoming fiber cables, and supports any Leviton panel (see page A15 or B29 for more details)

BLANK PANEL INSERTS

- Provide a seamless look and designate rack space for future expansion

TRANSITIONAL COVERS

- Provide clean, aesthetic transition from angled patch panels to flat equipment
- Improve thermal management

REAR CABLE MANAGEMENT BARS

CABLE MANAGEMENT | Rings & Brackets

ORU PATCH CORD MANAGER

- Mounts on side of Leviton 1RU flush-mount enclosures and flat or angled panels
- Rigid fingers with cable retention feature to organize and protect cords
- Reversible for flexible mounting options

CABLE MANAGEMENT RINGS

- Vertical Management Rings are an open ring solution that can be installed in tight spaces and smaller deployments
- Mounting Tie Bracket allows rings to be positioned between racks
- Vertical Transition Rings are used for vertical and horizontal cable management and are compatible with flat and angled panels

HINGED WALL-MOUNT BRACKETS

- Designed for installations where space is constrained and racks are not used
- Six-inch deep brackets allow for proper cable management

FRONT HINGED BRACKET

- Simplifies process of terminating cables to rear of patch panels when access is limited
- Easy-access quick-release latches drop to 90-degree and 120-degree positions
- Rack or wall mountable

SPOTLIGHT

Cincinnati Bell Technology Solutions (CBTS) Scores with Comprehensive Data Center Services

CBTS counts several hundred Cincinnati-area businesses, from small shops to Fortune 500 companies, among its customers. And with a constant demand for colocation and virtual data center services, CBTS required a top-quality infrastructure to achieve the reliability needed for expanding its critical data center environment. After evaluating several options, CBTS chose Leviton connectivity for its quality, reliability, and outstanding performance. Plus, in addition to meeting needs, Leviton took it one step further by developing its custom solutions for unique data center applications.

ZONE ENCLOSURES

- Provide flexible consolidation points in ceiling or floor
- Simplify moves, adds, and changes (MACs)
- Plenum rated and includes fire-rated foam sealing kits
- Significant reduction in cable pathway loading
- Use as a telecom enclosure (TE) for cabling flexibility

2' X 2' PASSIVE RAISED-FLOOR ENCLOSURES

- Fit in air-handling space under 8-inch raised floors
- House two 4RU (8RU total) racks for standard 19-inch components
- Rotating patch panel mounting provides easy access to rear of panels

CEILING ENCLOSURES

- Install flush with drop ceiling
- Fully hinged drop-down doors support installed equipment and open to face technician
- Active and passive styles available
- Mount into standard 2' x 2' and 2' x 4' ceiling tiles
- Active enclosures include AC power back box and venting for active equipment

ZONE ENCLOSURES

DESCRIPTION

PART NO.

[A] Active Ceiling Enclosure, 2' x 2', 2RU active and 5RU passive space

Z1000-AC2

[B] Active Ceiling Enclosure, 2' x 4', 4RU active and 10RU passive space

Z1000-AC4

[C] Passive Raised-Floor Enclosure, 8" depth, 8RU passive space

Z1000-PF2

[D] Passive Ceiling Enclosure, 2' x 2', 5RU passive space

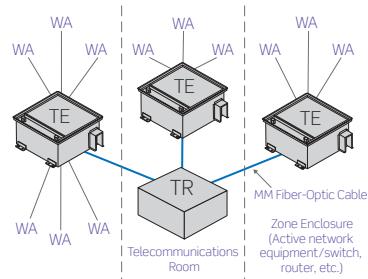

Z1000-PC2

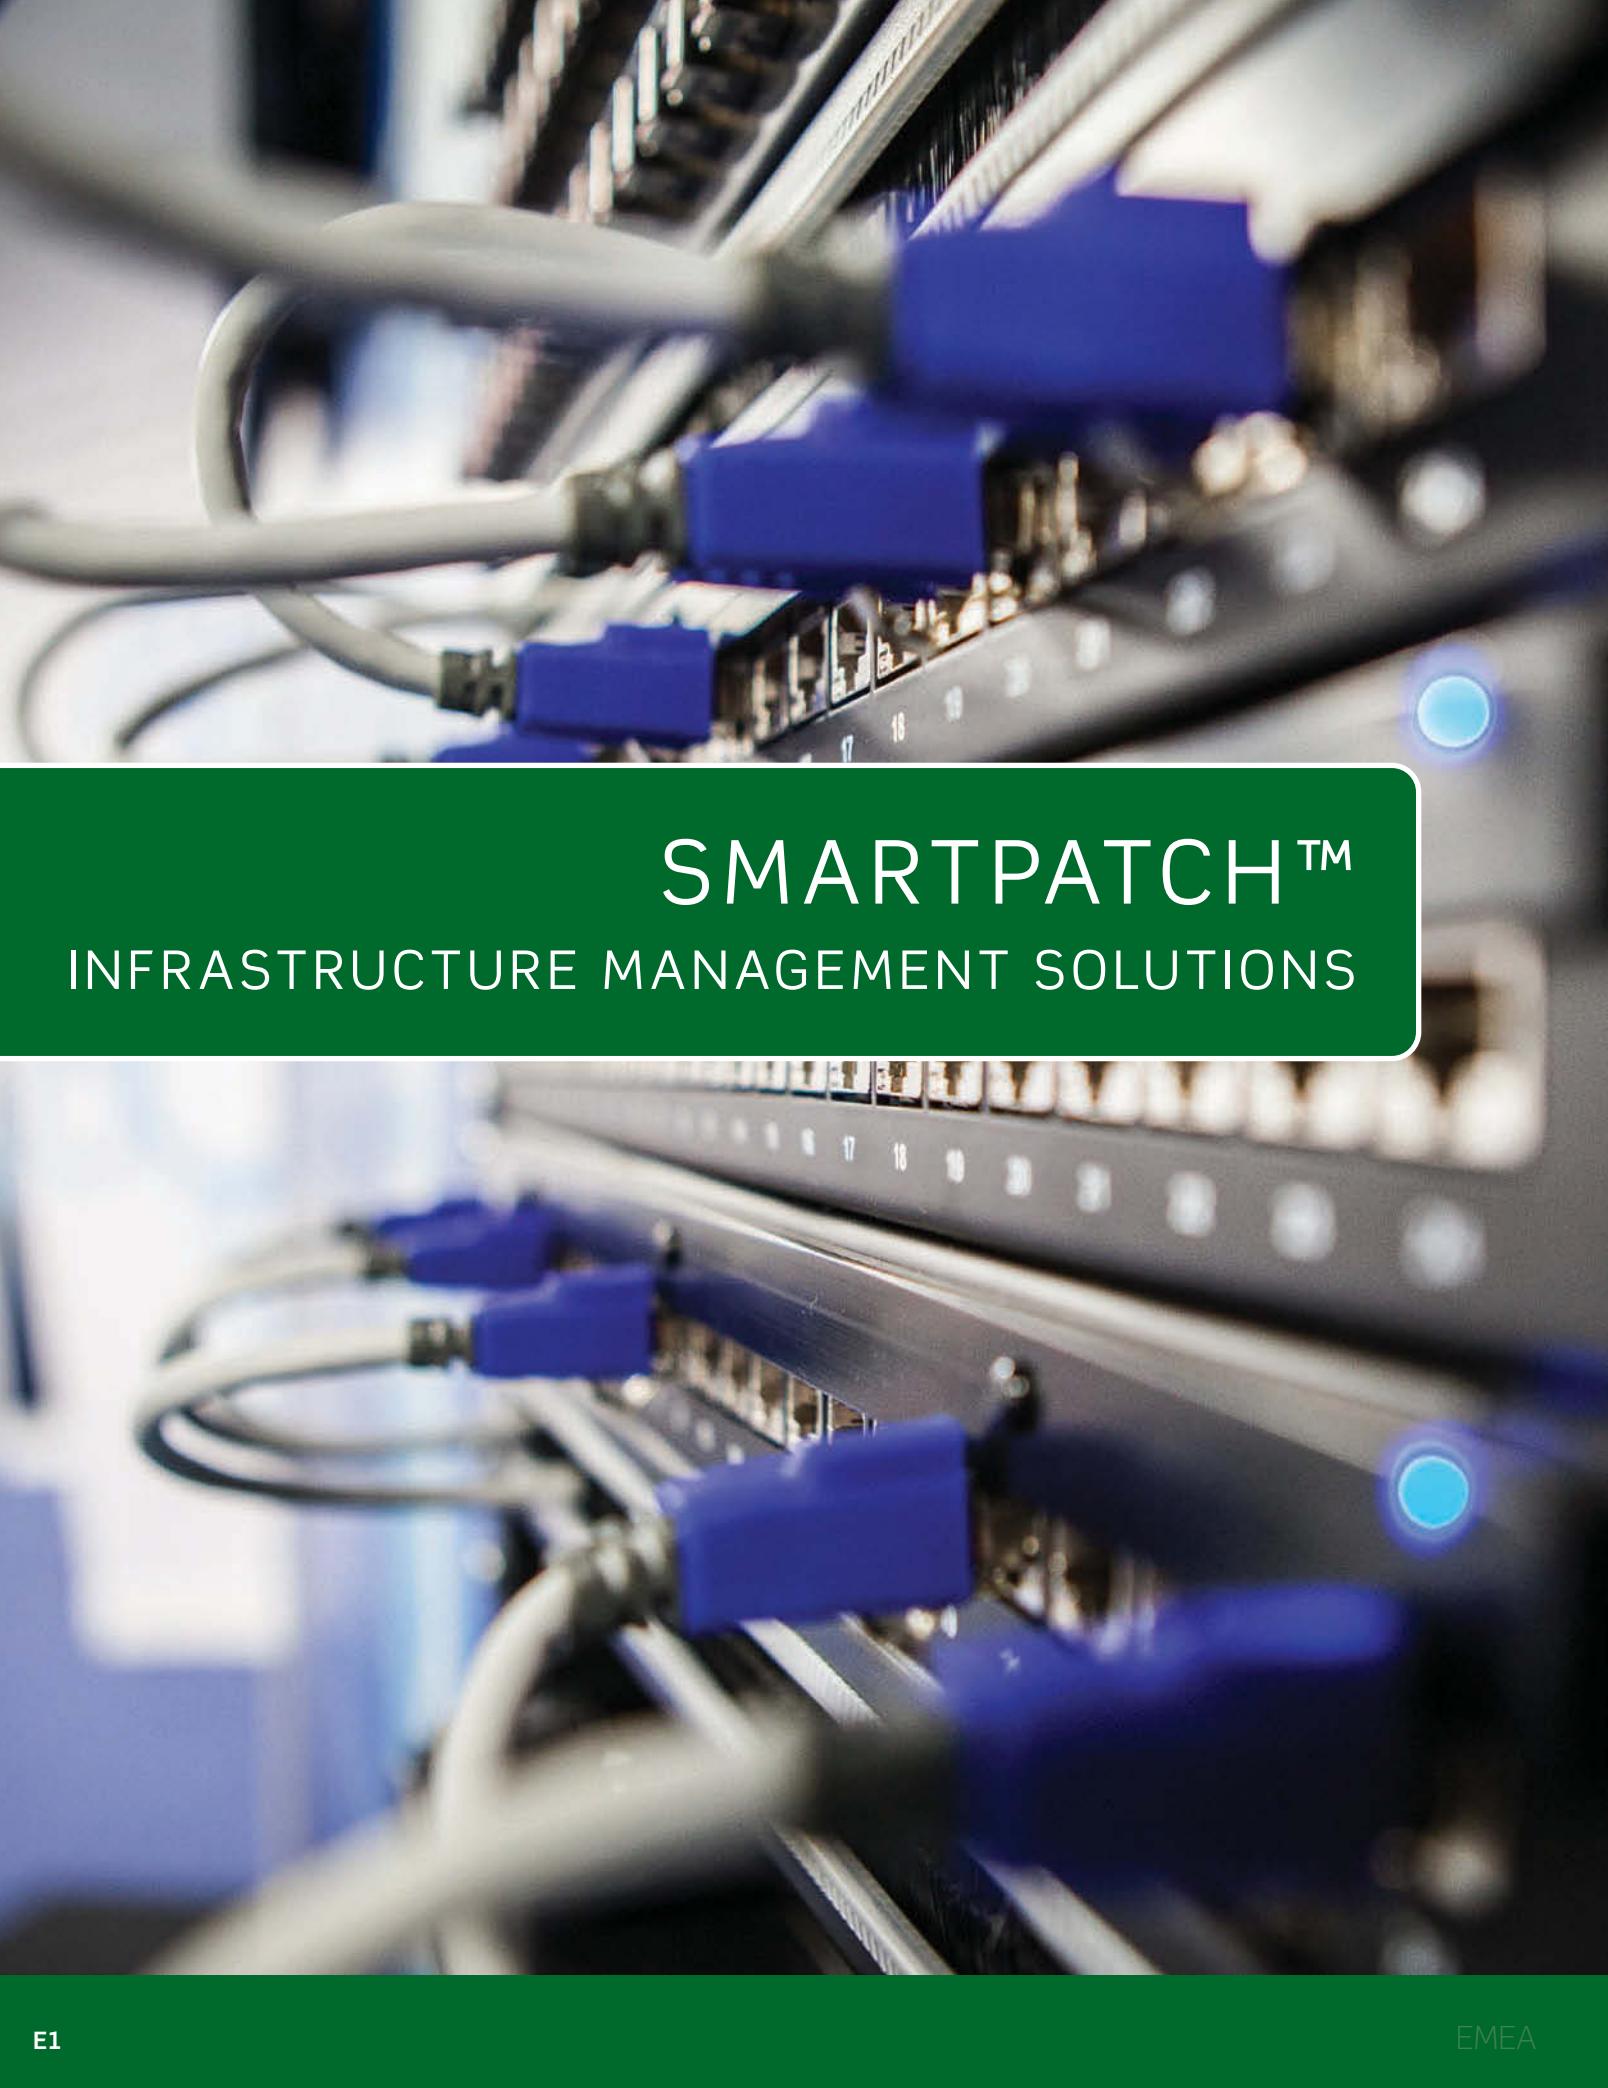

SPOTLIGHT

Zone Cabling Design Benefits

In a **zone cabling design**, cables are routed from the telecommunications room (TR) to appropriately placed telecommunications enclosures (TE). Cabling is then run from the zone enclosure to each work area (WA). In an Active Zone Enclosure System, a single fiber run can support dozens of work areas, significantly reducing cable pathway loading and TR space requirements. Zone cabling designs are ideal for open office architecture. Zone cabling benefits include:

- Maximum infrastructure flexibility
- Improved network performance
- Simplified moves, adds, and changes
- Reduced floor space usage
- Significantly reduced cost of ownership

SMARTPATCH™

INFRASTRUCTURE MANAGEMENT SOLUTIONS

- E6** Accessories

For information on which products may not be available in your region,
please contact your local customer service representative for details.

SMARTPATCH INFRASTRUCTURE MANAGEMENT SOLUTIONS

SmartPatch provides simple and controlled management and recording of common network changes, such as those resulting from office moves, adds, and changes. The system also provides multisite businesses the tools to effectively monitor and manage all sites from a central location.

The SmartPatch software interface allows you to:

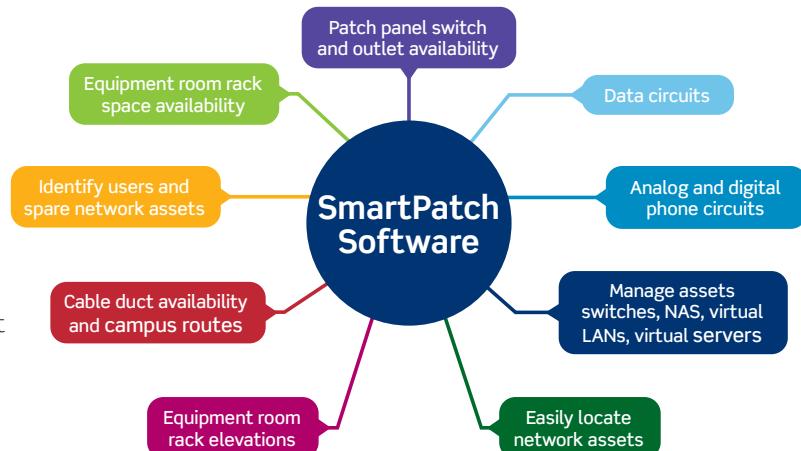

- Generate and maintain campus map layouts
- Design and manage your backbone cabling
- Model change scenarios and potential impacts to prepare for the future and lower risk
- Plan and implement a variety of tasks; Consolidation, relocation, reconfiguration whilst also monitoring live equipment
- Document who physically completed a task, where they did it onsite and when this was implemented
- Solve problems remotely and quickly while limiting personnel required on site
- Receive real time alerts mitigating downtime
- Maintain asset management of all infrastructure

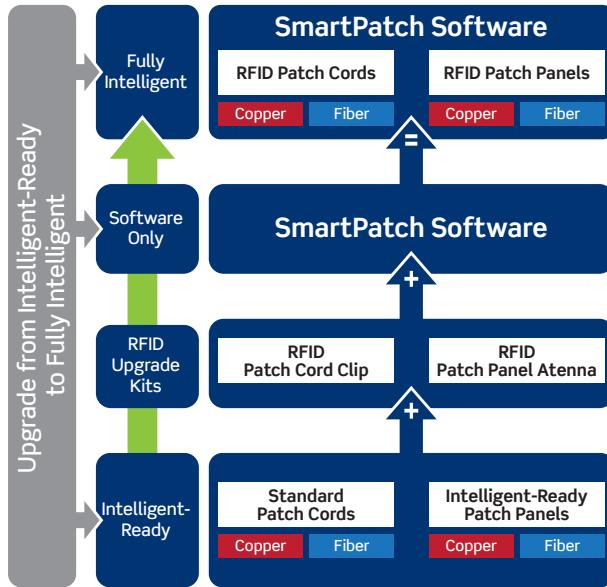

SMARTPATCH SOFTWARE

SmartPatch software can be used as a standalone offering to support your end-to-end infrastructure, or combined with the SmartPatch intelligent patching system to fully support data center, outside plant, or office network management. The software allows the monitoring and management of physical connectivity, and its fully transparent API means that real-time information can also be integrated into the most commonly available networks, facilities, configurations, and helpdesk management applications.

The software also allows IT managers to establish a named cable path from one part of the network to another. The user-friendly interface allows IT managers to quickly identify and inspect connections within splice enclosures, patch panels, optical network devices, and passive optic network (PON) splitters.

The named circuit can be managed as a single entity within the network, and can include point-to-point connectivity between the central office, NOC or POP, and a customer site. The software also allows maps, drawing files, PDFs, and images to be imported, ensuring you can customize the network relative to specific area and location requirements.

SmartPatch easily manages assets and connectivity from equipment rooms and data center floors to the workspace environment while also efficiently supporting the physical network, allowing users to:

- Manage end-user space in colocation data centers
- Manage and plan rack-space usage and power consumption
- Manage the lifecycle of data center assets
- Manage data center floor space
- Manage the impact of loss of power and network connectivity
- Manage moves, adds, and changes efficiently
- Data mine assets and connectivity for engineering and management reporting

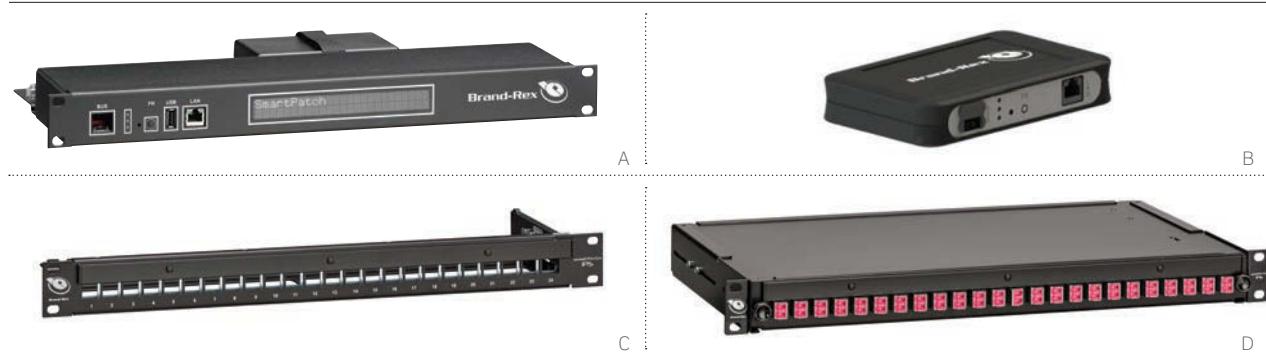

IN-HOUSE SOFTWARE & SOFTWARE AS A SERVICE (SaaS)

- Software includes unrestricted user-defined attributes, reports, work orders, resources, 3D visualization, and full access to the API
- Service contract required for first year for all in-house software installations
- Annual service contract is included with SaaS software installations

SMARTPATCH™ | System Components

SMARTPATCH NETWORK SCANNERS

- Connects the intelligent patching panels to the SmartPatch software
- Can be mounted as a 1RU device or in a zero RU configuration

SMARTPATCH COPPER & FIBER PATCH PANELS

- Copper: 24 ports in 1RU
- Fiber: 48 fibers (24 duplex LC ports) in 1RU
- Available with RFID antenna strip included or as an intelligent-ready panel without antenna
- LEDs above each port trace connectivity and offer patching guidance

SMARTPATCH RFID CLIPS

- Field retrofittable, even when patch cord is connected to a port
- Attribute information about the patch cord may be programmed (e.g. length and color of patch cord)
- RJ-45 clips are compatible with Cat 6A and 6 S/FTP copper patch cords
- LC clips are compatible with LC-style optical fiber patch cords

SMARTPATCH ANTENNA KITS

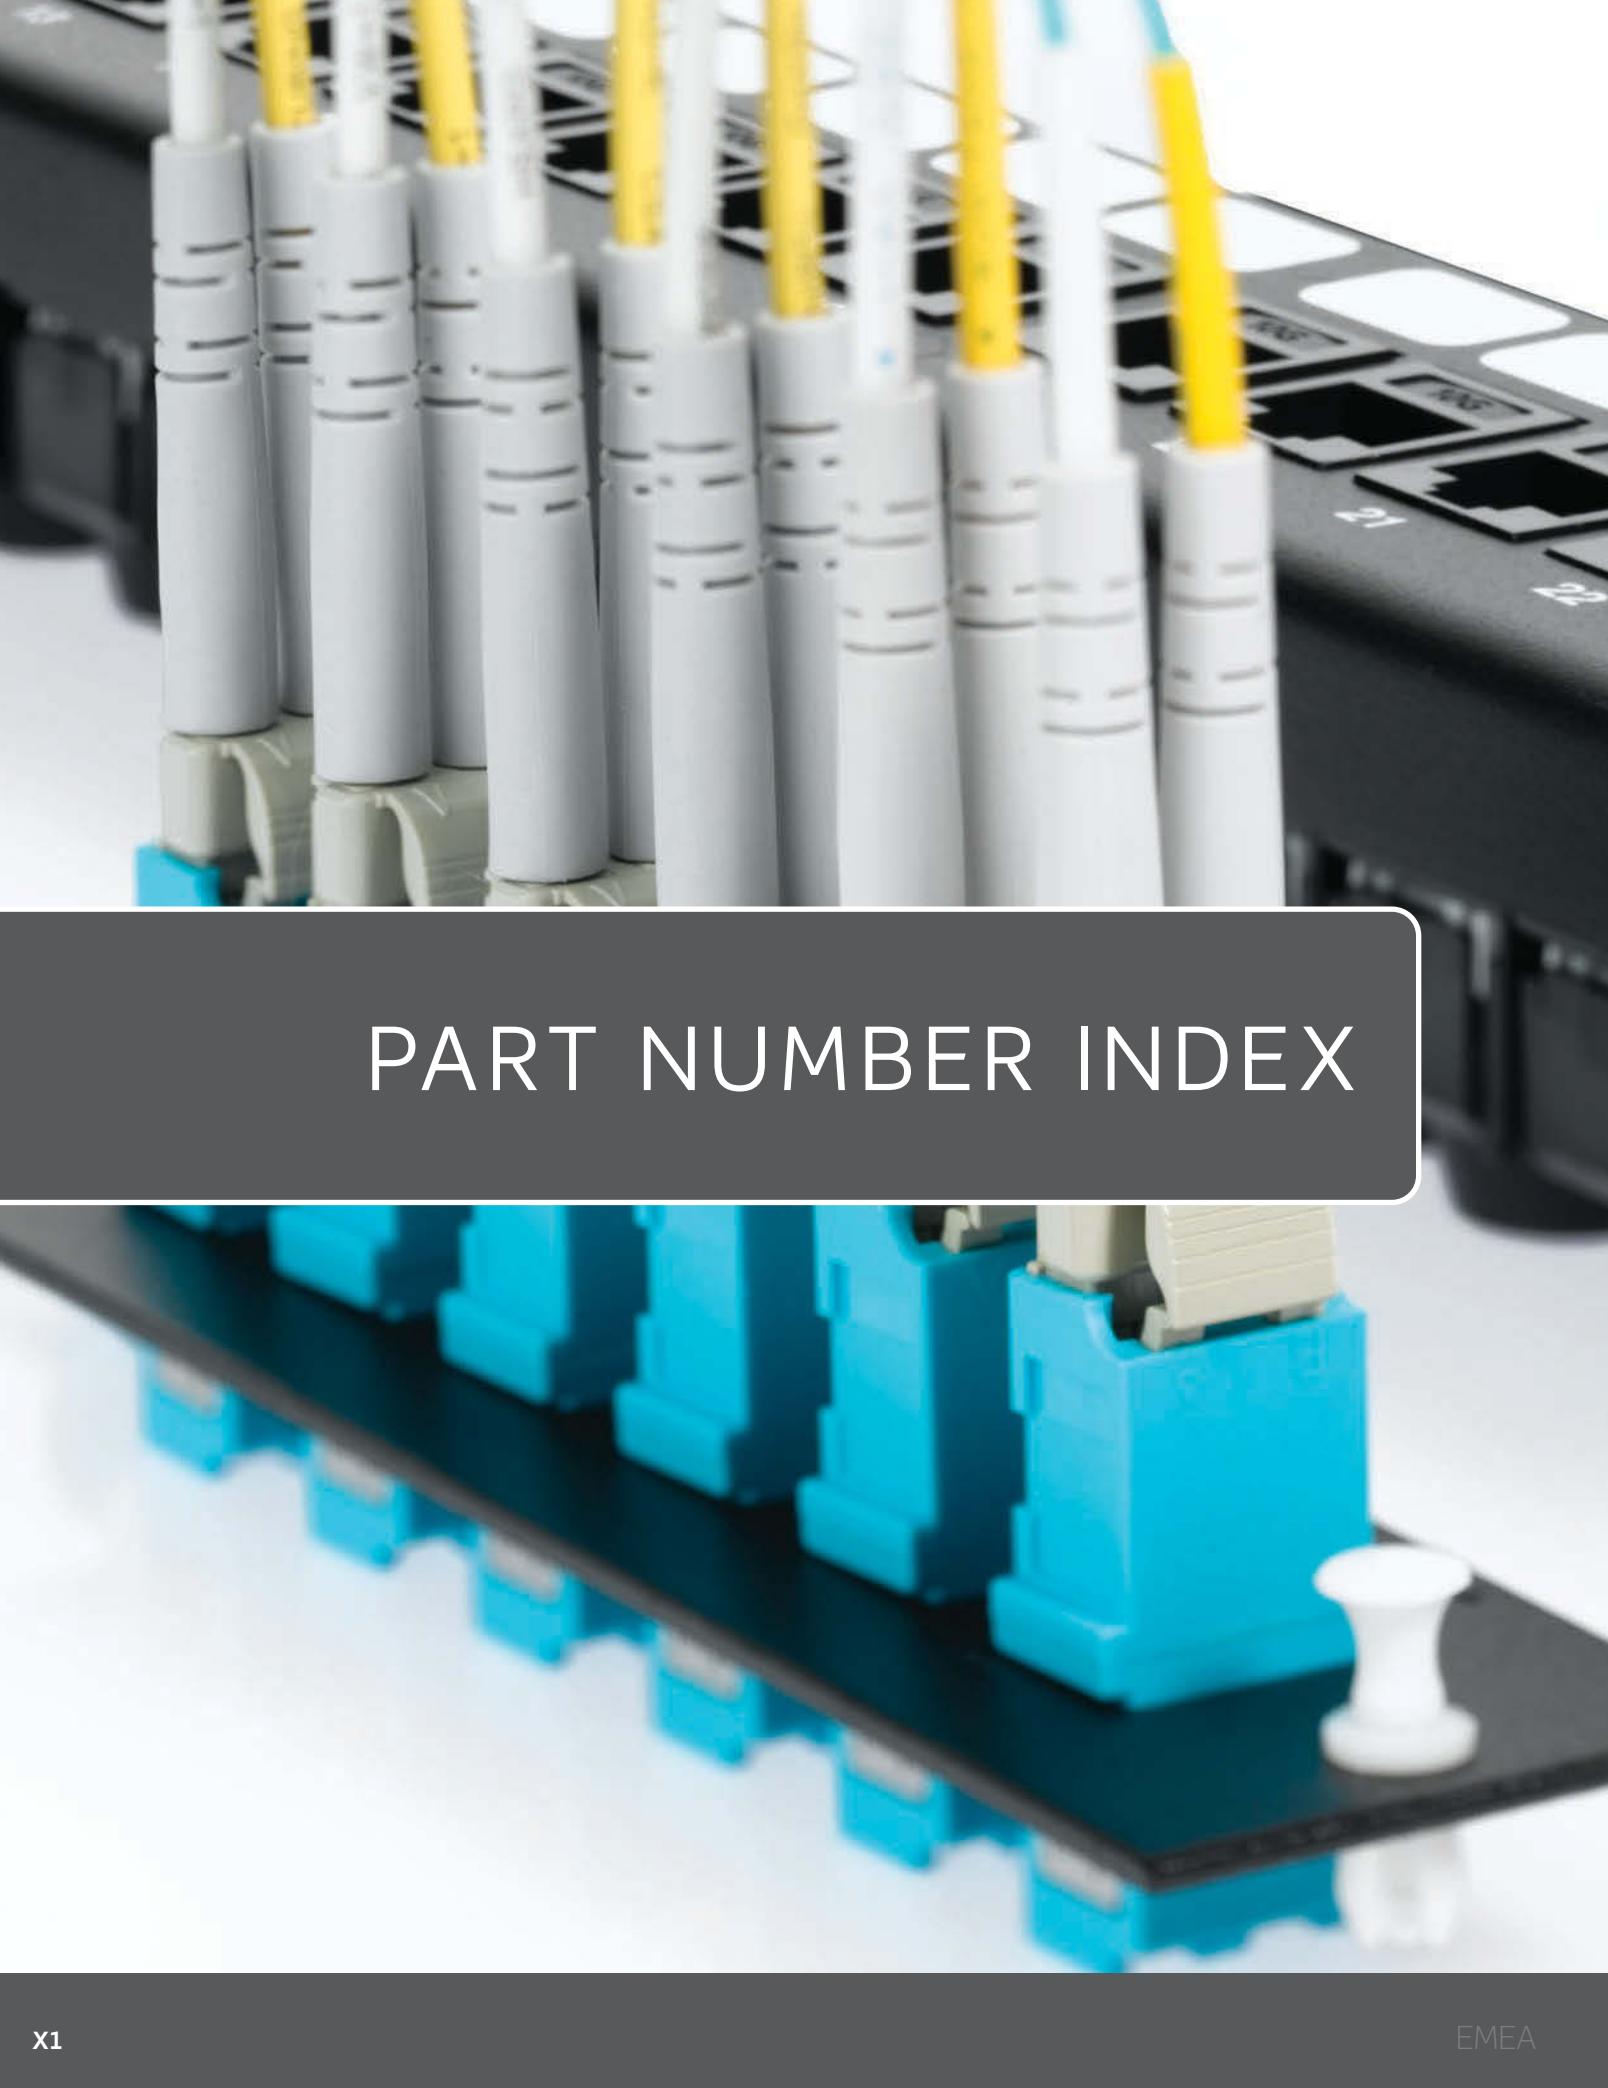

- Allows migration from intelligent-ready panels to fully intelligent panels
- Kits include clip-on 24 LED RFID antenna strip, RFID module, and bus cable connector

SMARTPATCH RFID PATCH CORD CLIPS & ANTENNAS

All rights reserved. All unauthorised quotation and reproduction is forbidden except for brief examples used in reviews of this work by periodical publications where the source of information is credited to Leviton, or the reproduction of this material for the purpose of preparing specifications and/or bids in which Leviton products are indicated. To request permission, please contact the Leviton Network Solutions marketing department at +1 (425) 486 2222.

Information in this catalogue is provided as a guide to product selection and is believed to be correct at time of publication. Because Leviton engages in a continuous program of product improvement, data is subject to change without notice.

Leviton Manufacturing Co. Inc. and any subsidiary companies reserve the right to refuse sale of any products detailed within this catalogue if such a sale would be considered a breach of United States, United Kingdom, or European Union export trade legislation.

Today's networks must be fast and reliable, with the flexibility to handle ever-increasing data demands. Leviton can help expand your network possibilities and prepare you for the future. Our end-to-end cabling systems feature robust construction that reduces downtime, and performance that exceeds standards. We offer quick-ship make-to-order solutions from our US and UK factories. We even invent new products for customers when the product they need is not available. All of this adds up to the **highest return on infrastructure investment.**
