## 3. Eco-labelling and emissions

Is the product eco-labelled?  
If yes, state label and licence No.

☐ Yes ☒ No

## 4. Waste/worn out product

Is waste/the worn out product rated as hazardous waste?  
If yes, state cause:  
How should the worn out product be taken care of?  
Is the supplier willing to call in the worn out product?  
If yes, how is called-in waste/the worn out product taken care of?

☒ Yes ☐ No  
Poison gas disengage by fire.  
Be grinded, melted down and reused.  
☐ Yes ☒ No

## 5. Transport and packing

Which kind(s) of transport is used?  
In which material(s) is the product packed?

Lorry or parcel post.  
Boxes of cardboard or corrugated board and where appropriate, in addition, in a plastic bag of polyethylene (PE).

Is recycled material a part of the packing?  
If yes, state which material(s) and extent

☒ Yes ☐ No  
Recycled packing/ -paper according to the manufacturer's normal routine for packing.

How should the packing be taken care of?

According to the normal routine for packing.  
TA is listed on the REPA register.  
Registration No 55603362-5601  
The recycling system of the packing complies with the REPA agreement.

## 6. TA's environmental work

Please see TA's Safe, Health and Environmental Policy published at the portal.

TA has a certified quality and environmental system, please see the certificates published at the portal.
