

Cable decoiler

Benefits

LOW WEIGHT - HIGH PERFORMANCE

Lightweight and durable cable decoiler for professional use. The durable frame is completely made of aluminum, with rolls made of galvanized steel. Unbeatable Weight / Max load ratio.

SAFE

The ramps are equipped with anti-slip protection and the safety edge of the ramp prevents drums from being rolled on slanted, and prevents accidents.

FLEXIBLE

The position of the rollers can easily be adjusted using a screwdriver, so that the unroller fits cable drums / bobbins with an outer diameter of 200 to 700 mm.

SAVE TIME AND MONEY

The VAERK cable decoilers make cable management easier, saving time, and thus money.
