

Connectors to plastic socket pipes

Product information for the product group

ACO Product benefits

- Material: Galvanised steel
 - Building material class: A1
 - Non-combustible
 - No introduction of additional fire load
-
- According to DIN EN 1123
 - With a 1 A socket
 - Not inflammable, building material class A1
 - Made from galvanised steel
 - With additional internal coating

Item Technical Data 0174.12.95
