

Connectors to plastic socket pipes

Product information for the product group

ACO Product benefits

- Material: Galvanised steel
- Building material class: A1
- Non-combustible
- No introduction of additional fire load

- According to DIN EN 1123
- With a 1 A socket
- Not inflammable, building material class A1
- Made from galvanised steel
- With additional internal coating

Item Technical Data 0174.12.96
