

PRODUCT CERTIFICATE

Manufacturer	ELPRESS AB P O Box 186 S-872 24 Kramfors, Sweden
Trademark	ELPRESS
Product	Branch connector, C-sleeves from C6-10 up to C26.
Material	Copper Cu SS-EN 13605 CW008A, tin plated
Use	The connector shall be used for splicing and branching stranded copper conductors for grounding or lightning protection. Especially suitable for grounding purpose in the soil. Operational instructions, crimping tools and connector - see Elpress manuals and handbook.
Product test	The system is tested and approved in accordance with Swedish standard SEN 245010 and SS 436 21 10. Including both electrical, mechanical and environmental tests.
Quality and environment	Elpress products are manufactures in accordance with ISO 9001 and ISO 14001 by BSI.
Date	2005-09-20
Issued by	Per Fällström, Technical manager, Elpress AB

Additional information:

Elpress manuals and instructions shall be used operating C-sleeve connections and crimp tools. Full safety can only be achieved if instructions are followed.

When using flexible conductors together with C-sleeves the workability of material in crimp is very good which means that a reliable electrical connection is achieved. Although it should be known that the fine strands in these conductors must be kept together during the crimping operation avoiding strands coming outside the C-sleeve.
