

TECHNICAL DATA SHEET

SECUMAX 350 NO. 350005

Safety technology

Concealed blade – a maximum degree of safety

The SECUMAX 350 blade is not an open one, but is hidden from people and goods. This provides you with a maximum degree of safety from cut injuries and from damage to goods.

SAFETY KNIFE WITH CONCEALED BLADE AND AN INNOVATIVE BLADE CHANGE.

Order No. 350005.02

More fun while you work? Try it out. With robust blade head.

The SECUMAX 350 is a combination of versatility, comfort and safety. A maximum degree of safety. Featuring an innovative blade change, this knife is multi-talented. It can be used to cut all standard materials, from film to plastic-strap-ping, from paper to 2-ply cardboard. It splits adhesive tape easily too. And it is so comfortable to hold that you won't want to put it down.

Robust blade head

The plastic-covered blade head is particularly robust with a blade thickness of 0.5 mm. This SECUMAX 350 can therefore take on especially difficult cutting materials in logistics and production.

Concealed blade

The blade head's two cutting edges are safely concealed to protect users and goods and are yet capable of safely cutting 2-ply cardboard boxes and much more.

Spare blade in storage

Blade change is easily and safely executed. Look for the arrow and follow its lead. Open the blue inner side of the knife to reveal the spare blade while also releasing the locking mechanism of the robust blade head.

Light and easy

A cutting heavyweight, but with only 38 grams, this knife is rather lightweight. Meaning that even high cutting frequencies won't weigh you down. There's no need to stress when handling the blade either: a plastic jacket protects your fingers.

Ergonomically shaped

Right handed or left handed? It's really all the same. The SECUMAX 350 fits perfectly in any hand. Gently arched outer edges, coupled with suitably located soft grip and light ribbing make for an ergonomic experience.

PRODUCT FEATURES

Technical features

Maximum safety

Tool-less blade change

Abrasion resistant

Very ergonomic

2-cutting edge blade

1 spare blade in knife body

Cutting depth

Soft grip

Coated film

Rubber

Installed blade

NO. 3448
0.50 mm

Optional blade

NO. 3550
0.30 mm

BLADE CHANGE

Swing open the **blade magazine**. The fitted blade head will automatically disengage.

Remove the fitted blade from the head of the cutter. Now you can either **rotate** or **replace** the blade.

Position the spare blade **parallel** to the slanted side of the cutter head. Push the blade in, and then **downwards**, until fully engaged.

Push the blade magazine **back into the handle** to lock the blade head in place.

SAFETY ADVICE

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user-instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. General application instructions: Please always use the product carefully for manual cutting work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the knives into account in this regard. As an additional safety measure, we recommend the wearing of safe gloves.

2. Special application instructions to avoid the danger of injuries: Always take great care when handling the product. Before first use, familiarise yourself with the safety technology and how it works. Before every further use, check the knife for proper functioning. Only use cutting tools that are in perfect condition with sharp, clean and undamaged MARTOR blades. Also make sure that the knife's operation is not impaired by the material to be cut or by dirt or particle deposits around the blade. **CAUTION: The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade!** Do not place your free hand in the line of cutting and never cut directly towards you.

3. Replacement of spare parts: Replace any blades that become dull at the right time! Use only the replacement blades from MARTOR for this purpose. Dispose of old blades in a proper fashion. They should not be placed in a waste paper bin, as this poses a considerable danger of injuries. Never perform any repairs yourself. If the knife shows signs of aging or any other wear, e.g. which impair safety features, blade changing or usage, the knife must be taken out of service and replaced. Do not modify this product in any way. Modifications of any kind may impair product safety. **CAUTION: The risk of injury caused by manipulation of this product is extremely high.**

4. Non-use of the knife: Always secure the blade in such a way (depending on product type) that injuries due to cuts are excluded. Store the knife in a secure place.

5. Care instructions: To guarantee a long service life, always keep the knife clean and do not expose it to unnecessary soiling and humidity.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!

ACCESSORIES

BELT HOLSTER S WITH CLIP

NO. 9920

What do you do with your cutting tools when you are not actually using them? The MARTOR BELT HOLSTER S is a robust holder that allows you to carry all compact MARTOR knives as well as our safety scissors at all times. In addition, the compartments are designed to allow you to load different tools: for example you can also carry a pen or a pack of blades. The MARTOR BELT HOLSTER is the ideal place to stow your tools safely when moving from A to B - and have them at hand, as soon as they are required.

CONNECTOR

NO. 9946

Materials that require cutting can sometimes be too high or too far away. The CONNECTOR from MARTOR helps you to overcome distances when cutting. The CONNECTOR is simple to attach to our SECUMAX 350, 350 SE, 150 and 148 safety knives and makes a stable connection. At the other end, the CONNECTOR can be connected, for example, to the MARTOR TELESCOPIC POLE. You then gain much more reach.

USED BLADE CONTAINER

NO. 9810

You can fill the USED BLADE CONTAINER with the content of your SAFEBOX. Or directly with your used blades. When the box is full, turn the lid until it shuts. Now the box cannot be reopened. The next step is to safely and completely dispose of the filled USED BLADE CONTAINER as normal waste.

WALL MOUNT BRACKET USED BLADE CONTAINER

NO. 9845

Include it in your order now! With this mounting bracket you can fix your USED BLADE CONTAINER to a central location. Use the clamp and screws and nuts supplied with the product to attach it to either a pipe or a rod.
