

SUCTION HOSE

EVA - Vacuum cleaner hose

DESCRIPTION

Extruded suction hose
Corrugated outside, smooth inside.

CHARACTERISTICS

EVA (Ethyl Vinyl Acetate)
Especially suitable for extraction of welding fumes and smoke.
Suitable as a vacuum cleaner and fresh air hose. Also used as a suction hose on electric and pneumatic tools.
Self-supporting construction without spiral.
After compressing the hose recovers to its original shape.

All specifications apply to 20°C

Outside: Corrugated
Inside: Smooth
Temperature: -25° to + 60° C

Suction

-Welding hose
-Vacuum cleaning
