## MARTOR CERAMIC BLADES. TEST FLEXIBLY NOW!

### DURABLE AND SHARP

The new MARTOR ceramic blade impresses with its long service life and long-lasting sharpness. This makes it easier for you to cut a wide variety of materials. Blade changes are rarely necessary.

### VERSATILE USABLE

In addition to its sharpness, the ceramic blade has special chemical and physical properties. This means your MARTOR safety knife is well equipped, even in special situations.

### FLEXIBLE AND SAFE

You can use the ceramic blade flexibly in existing MARTOR handles – as an alternative to the mounted steel blade. The reliable safety technology of your safety knife protects you when cutting. You will also benefit from its comfort and ergonomics.

ENJOY SAFETY  
MADE IN SOLINGEN
