# Laserliner®

AutoCross-Laser 3C

## Crossline laser with 3 super-bright laser lines and additional plumb laser.

- **PowerBright-Laser:** Special high-performance laser diodes project extremely visible laser lines.
- This unit produces **3 very visible laser lines** which make it outstanding for the alignment of tiles, wall studding, windows, doors, etc.
- **Automatic Level**: automatic alignment by virtue of a magnetic pendulum system.
- The **2 vertical lines** are aligned at right angles to one another.
- A simple, precise plumb function is afforded by the **additional plumb laser** at the bottom and the laser cross at the top.
- **Individually switchable** laser lines.
- **Out-Of-Level**: is indicated by optical signals when the unit is outside its self-levelling range.
- **RX-Ready:** The integrated hand receiver mode detects the laser lines with the optional laser receiver RX up to a max. of 50 m radius – ideal for all interior and exterior applications.
- The pivoted housing can be turned with a **vernier adjustment mechanism** to permit exact positioning of laser lines.
- **Illuminated vial** and **height-adjustable feet** for preliminary adjustment of the unit.
- **Removable rubber caps**.
- **Transport lock:** A pendelum lock protects unit during transport.
- **Simple, uniform operating techniques.**
