

## MasterCross-Laser 2G

Green cross-line laser with 2 clearly visible laser lines and integrated hand receiver mode

Rev.0316

- **Green laser technology**
- Extremely bright green laser cross at front in the **DLD design achieves high-quality lines** as well as a clean and clear and therefore easily visible line image.
- With the **magnetic clamp and wall bracket** the device can be used as a standalone unit, in a combination as well as in horizontal and vertical position.
- Ideal for mounting horizontally and vertically on **drywall construction profiles**.
- **Automatic Level:** automatic alignment by virtue of a magnetic pendulum system.
- **Tilt mode is an additional feature** that permits gradients to be laid out.
- **Individually switchable** laser lines
- **Out-Of-Level:** is indicated by optical signals when the unit is outside its self-levelling range.
- **GRX-Ready:** in combination with the optional laser receiver, the integrated hand-held receiver mode permits detection of laser lines at long distances and under unfavourable light conditions.
- **Transport lock:** A pendulum lock protects unit during transport.
