

Brand-Rex Copper Connectivity - 48 Port 1U Patch Panel

PRODUCT DESCRIPTION

The 48 Port 1U Snap-in-Jack Patch Panel is ideally suited for data centre applications and installations where rack space is at a premium. The panel offers exceptional high density with the ability to accommodate up to 48 jacks within a 1U space on a 19" rack. Each panel is screened with port identification strip and also panel identification space to allow for easy port and panel identification. The product is supplied with an earthing point and a detachable cable manager. Jacks are sold separately.
