

BÖHLER ANTI SPATTER SPRAY

Welding Chemicals

Our non-flammable BÖHLER Anti Spatter Spray is the right choice for your perfect weld! With its unique formula and viscosity it offers an outstanding adhesion on metallic surfaces, it is non-harmful for the welder and biodegradable. Because Böhler Welding cares.

Fields of application:

- » Oxy-fuel cutting
- » Plasma cutting
- » Spot welding
- » MIG-Brazing (CuSi3 / CuAl8)
- » Manual and robotic MIG/MAG torches
- » Hot-tip galvanized and electrogalvanized surfaces
- » Tools, welding jigs and working surfaces

BÖHLER Anti Spatter Spray
12 x 400 ml cans in 1 carton

Product features	Product benefits	Customer benefits
Water-based, non flammable emulsion	Harmless and biodegradable	<ul style="list-style-type: none"> » 100 % safe for the welder and our environment » Optimal weldability & unsusceptible for pores
Silicone-free	No remaining residues	Very good coating prerequisites e.g.: galvanizing or paint coating of components
Anti-stick effect	Easy remove of spatters	Reduced rework and extended lifetime of components and tools used
Ideal viscosity	Surface covering and homogeneous adhesion	Excellently suitable for vertical surfaces
360° valve	Stable pressure in any position	Applicable in overhead positions and areas with difficult access
Stable emulsion	Long durability without loss of quality	Long lasting quality over 36 months

Instruction on how to use:

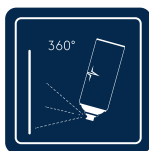

1. shake 30 sec.

2. apply

3. start welding

360° -
applicability
