 Water treatment
 Welding
 Wood Industries

Product Use

Multi-Use earplug Metal detection for the Food Industry

50 pair / box, polybag

Features & Benefits

Feature

CONFORMING MATERIAL TECHNOLOGY™ Thermoplastic Elastomer (TPE) adapts plug to the contours of the ear canal for a more personalized fit, feels better the longer you wear it. VISUAL AND METAL DETECTION Detectable ring on stem and attached metalized cord detectable by automated equipment, while blue color aids in visual detection. IDEAL FOR PROCESS INDUSTRIES Pulp & paper, food/beverage processing, tobacco.

Benefit

Smartfit Detectable - 1012522

Ears are like people — each one unique and different. That's what makes SmartFit Detectable such a marvel of user-friendly design. The only multiple-use earplug with Conforming Material Technology[™] SmartFit Detectable uses body heat to adapt to the shape of the ear canal for a comfortable, personalized fit. Designed for process industries such as food and pulp/paper, SmartFit Detectable's bright blue color and metalized features aid can be detected by visual or automated methods. It's the ultra-smart choice for today's diverse workplace.

Additional Information

User Manual

Instruction Manual - SmartFit Detectable

Maintenance

Life Cycle

We recommend replacement every 2-4 weeks.

Storage Information

All earplugs should be stored before and between usages in a way that protects them from dirt, grease, and other contaminants.

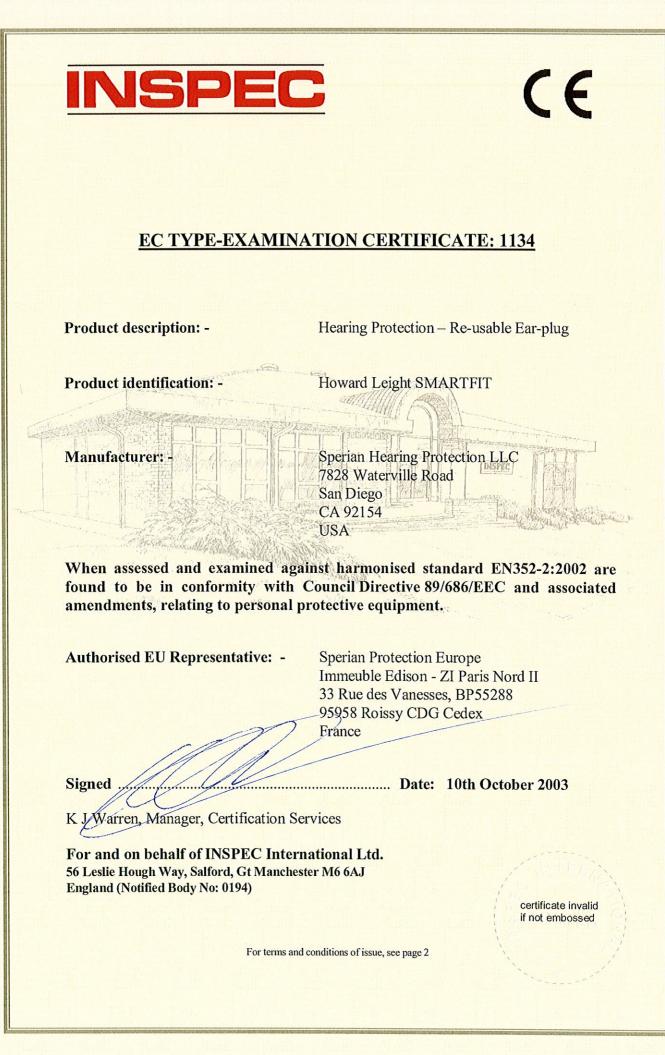

Care Instructions

Our reusable earplugs may be washed in warm water and allowed to air dry. Washing may be repeated several times, but we recommend replacement every 2-4 weeks. Hydrocarbon based solvents, such as alcohol, should not be used to clean reusable ear plugs. The use of such solvent based cleaners may cause reusable plugs to soften, swell, and weaken with time. Additionally, with extended use, reusable plugs must be regularly inspected for serviceability.
