Supplier's name:

Murrelektronik GmbH

Address:

Falkenstraße 3 71570 Oppenweiler GERMANY

declare under our sole responsibility the following:

Concerning the requirements for electrical and electronic products (EEP) with respect to the production, marketing and import for the Chinese economic area (China RoHS 2)

The Ministry of Industry and Information Technology (MIIT) of the People's Republic of China has published with validity start on 1st of July 2016 the legal requirement "Management Methods for Restricting the Use of Hazardous Substances in Electrical and Electronic Products" (Order No.32 of 06 January 2016) "China RoHS 2".

The scope of China RoHS 2 affects the product portfolio of Murrelektronik GmbH and is defined as follows:

- All electrical and electronic products (EEP) with max. 1000 V AC and max. 1500 V DC
- All products with a manufacturing date from July 1st, 2016, which fall under the scope of China RoHS 2, must • be marked and, if the limit value is exceeded according to GB/T 26572-2011, also declared accordingly.

Concerning the scope of the law regulating the restriction of the use of certain hazardous substances in electrical and electronic products under the title "Management Methods for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products" (China RoHS 2) the products of Murrelektronik GmbH are not subject to any further obligations at present as regards to the "Compliance Management Catalog" referred in Article 3 (4) of this law.

Murrelektronik GmbH will comply with the declaration and labeling requirements with respect to the Chinese trade area and accomplish them in accordance with the standard SJ/T 11364-2014. Since a large part of our products are components for further processing, they are not subject to the mandatory labeling requirements.

The labeled parts do contain hazardous substances with a recommended 50-year EPUP (Environmental Protection Use Period) and therefore do require a declaration table in accordance with the provisions of SJ/T 11364-2014:

Hazardous substance (有害物質)						
Part Name 零件名稱	Lead (Pb) 铅	Mercury (Hg) 汞	Cadmium (Cd) 镉	Hexavalent Chromium (Cr (VI)) 六价铬	Polybrominated biphenyls (PBB) 多 溴 联苯	
Connection Terminal/ Screws ¹ 接线端子 / 拧	x	0	0	0	0	0

O: Indicate that the content of the harmful substance in all homogeneous materials of the component part is below the limit defined in GB/T 26572

O: 表明該有害物質在組成部分的所有均質材料的含量低於按GB/ T26572定義的限制。

X: Indicate that the content of the harmful substance in at least one homogeneous material of the component part exceeds the limit defined in GB/T 26572. X: 表示該有害物質在組成部分中的至少一個均質材料的含量超過按GB / T26572定義的限制。
