

TECHNICAL DATA SHEET

**PRODUCT NAME**

blackbolt® Anti-splatter liquid

PRODUCT NUMBER

3356985027

PRODUCT DESCRIPTION

Prevents welding spatter from settling on the nozzle and the item. The contact nozzle's life is extended, and it therefore requires less maintenance. The product is concentrated, so take care to avoid using too much.

Anti-splatter liquid is on the galvanising institutions' "positives list".

PROPERTIES

Not flammable

Reduces maintenance

Can be used without rinsing

DIRECTIONS FOR USE

Ready for use and should not be diluted. Keep container closed.

MARKINGS/SAFETY

This product is not classified as dangerous.

PR number	2114627
Volumen	10 L.
