## SIEMENS

## **Product data sheet**

5SY6613-6

Similar to image

| Technical data:   |    |                                 |
|---|----|---------------------------------|
| Overvoltage class   |    | 3                               |
| type of voltage   | -  | AC/DC                           |
| Tripping characteristic class   |    | В                               |
| Degree of pollution   |    | 3                               |
| Mounting depth  | mm | 70                              |
| Energy limiting class   |    | 3                               |
| Number of poles   |    | 4                               |
| Number of pitch units for width   |    | 4                               |
| Product function / n-switching  | _  | Yes                             |
| Supply voltage frequency / rated value                                    | Hz | 50                              |
| Switching capacity current / in accordance with IEC 60947-2 / rated value | kA | 15                              |
| Breaking capacity current / acc. to EN 60898 / rated value                | kA | 6                               |
| Supply voltage / for AC / rated value                                     | V  | 400                             |
| Current / for AC / rated value  | А  | 13                              |
| Protection class IP   |    | IP20, with connected conductors |
| Product extension / can be installed / supplementary device               |    | Yes                             |
| power loss  |    | -                               |

CIRCUIT BREAKER 400V 6KA,3+N-POLE B, 13A, D=70MM

| Operational voltage Um  | -                                     |
|---|---------------------------------------|
| rated current In  | -                                     |
| Rated make-break capacity Icn   | -                                     |
| Rated service short-circuit breaking capacity Ics                       | -                                     |
| Rated ultimate short-circuit breaking capacity Icu                      | -                                     |
| Tripping characteristics Number   | -                                     |
| Tripping characteristic/-class Conventional tripping current I2, (x In) | -                                     |
| rated current In IEC, DIN/VDE   | -                                     |
| Tripping characteristic/-class Test current I4, hold (x In)             | -                                     |
| Resistance against shock / according to IEC 60068-2-27                  | 150m/s <sup>2</sup> at 11ms half-sine |

## Certificates/approvals:

| General Produc             | t Approval |          |                            |      |              |
|----------------------------|------------|----------|----------------------------|------|--------------|
| coc                        | <u>IMQ</u> | ROSTEST  |                            |      |              |
| Shipping Appro             | val        |          |                            |      | other        |
| B U R E A U<br>V E R I TAS |            | GL<br>GL | Lloyd's<br>Register<br>LRS | RINA | <u>other</u> |
