**CIRCULAR, STRANDED, COMPACTED COPPER CONDUCTOR 16-240mm<sup>2</sup>**

---

| Nominal area mm <sup>2</sup> | Max DC-resistance at 20 °C | Number of wires | Nominal conductor diameter | Nominal weight |
|------------------------------|----------------------------|-----------------|----------------------------|----------------|
| 16                           | 1,15                       | 7x1,69          | 5,0                        | 139            |
| 25                           | 0,727                      | 7x2,10          | 6,3                        | 212            |
| 35                           | 0,524                      | 7x2,49          | 7,4                        | 301            |
| 50                           | 0,387                      | 7x2,87          | 8,6                        | 401            |
| 70                           | 0,268                      | 19x2,22         | 9,8                        | 590            |
| 95                           | 0,193                      | 19x2,64         | 11,5                       | 824            |
| 120                          | 0,153                      | 19x2,97         | 12,9                       | 1032           |
| 150                          | 0,124                      | 19x3,29         | 14,3                       | 1280           |
